On Agenda-Wording Dispute

Compromise Rescues Egyptian-Israeli Talks

By William E. Farrell

JERUSALEM, Jan. 15 (NYT). The resumption of peace talks between Israel and Egypt, with the United States as a partici-pant, almost foundered today over last-minute dispute on the wording of an agenda. The incident demonstrated the fragility the Egyptian-Israeli peace initiative.

The dispute caused U.S. Secretre dispute caused U.S. Secretary of State Cyrus Vance last night to Suddenly postpone his trip to Israel only 1 1/2 houre before his acheduled departure. Early reday, there was doubt here that the Egyptian foreign minister, Mohammed Ibrahim Kamel, and his aides would arrive in Jonus leys for the part round of Jerusalem for the next round of alks which had been scheduled o open tomorrow with Israel's creign Minister Moshe Dayan.

By nightfall, a compromise had een reached, Mr. Kamel and his retinue arrived hours late at the airport, Mr. Vance announced in Washington that he would strive in Jerusalem tomorrow and the talks were rescheduled to open on Tuesday.

Cabinet Decision

A Foreign Ministry spokesman said tonight that he was not authorized to say whether there now was an agreed agends for the talks but he said that the Israeli' Cabinet today had made a decision "which was evidently sufficient for the other parties to

Surprised by Mr. Vance's sudden hange in plans and clearly under pressure, Prime Minister Menshem Begin convened the Cabinet for more than three hours this morning after a feverish night of communications on agenda between Jerusalem and Cairo.

The disoute focused on the wording of how the participants would deal with the issue of the the Gaza Strip and on the problem of the Palestinian Arabs who live there.

The Israelis reportedly were concerned about a wording that would tacitly give the status of a political entity to the territories. The Egyptians were said to have been anxious to have a specific item on the agenda regarding its demand that Israel withdraw from the territories.

Sources here said that the im-

the adoption of a fuzzily worded agenda item that was acceptable to the Egyptians.

Carrillo Also Critical

Giscard, Barre Assail U.S. Warning to Italy

dent Valery Giscard d'Estaing and Prime Minister Raymond Barre have reacted sharply to the U.S. State Department's admonition last week to Italy and other Western European nations against letting Communist parties par-

ticipate in their governments. "I have always made it a rule never to accept that anybodyand I mean anybody—interfere in French political life." President Giscard d'Estaing said today in Yamoussoukro, Ivory Coast, at a news conference ending a fiveday visit there. "That is our business." Indicating clearly that he intended the statement as an oblique warning to the Carter administration the President added the statement to the answer of a question that was only slightly related to the issue.

Yesterday, Prime Minister Ray-mond Barre said in a radio interview that "France, a democratic country, does not have to take advice or lessons from any-

cers and other observers had reported that the Vietnamese columns bypassed the principal town of the Parrot's Beak, Svay Rieng, and other locations that might have been logical military objectives. Bypassing them hastened the Vietnamese advance but may have left dangerous pockets resistance to the rear and flanks of advancing troops.

Counterattacks Confirmed

Soon after Cambodia severed diplomatic relations with Vietnam on New Year's Eve. That intelligence sources reported some shift of Cambodian forces away from the Thai border toward Vietnam. Those reports remain mconfirmed but yesterday'e news indicates that the Cambodian defense forces were able to withstand a prolonged Vietnamese incursion, lose control of wide areas and of half a dozen principal roads, and still mount significant counterattacks last week.

The Vietnamese accounts of Cambodian attacks came in Teletype transmissions and broadcasts from Hanoi monitored here last night. They described repeated mortar and artillery attacks on the three Vietnamese es surrounding the Parrot's Beak over five days ending on Jan. 8. They also described morter and artillery attacks and infantry raids against Vietnamese military posts and villages io the highlands to the north of the Parrot's Beak and in the Mekong Delta to the south.

4-Kilometer Incursion

The biggest Cambodian attack, according to the Vietnamese reports, was an infantry assault last Wednesday in the southern delta province of An Giang. Vietnam said that Cambodian troops penetrated "as far as four kilo-

meters into Vietnamese territory." Radio Phnom Penh has been claiming "historic victories" against the Victoriese for a week. So far, the Cambodians have not offered credible details.

The Cambodian forces are outmanned by the Vietnamese. According to foreign intelligence analysts here, Cambodia has an army of only about 80,000, while across the 1,200-kilometer border, Vietnam has almost a million persons under arms. An expeditionary force of perhaps 60,000 Vietnamese troops is still reported holding positions on the plain directly east of Phnom Penh throughout the Parrot's Beak, and elsewhere from the Laotian border to the South China Sea.

U.S. Yacht Crew Freed by Vietnam Said to Admit Smuggling Drugs

NEW YORK, Jan. 15 (AP).—Three U.S. citizens held captive by the Vietnamese for violating territorial waters have reportedly told a U.S. television reporter that they were smuggling 1,320 pounds of marijuana when they and their 35-foot yacht were apprehended three months ago. The Vietnamese

government had accused them of smuggling done. Jon Alpert, a reporter for WNET-TV, a Public Broadcasting Station in New York, reported that he interviewed the Americans in Vietnam on Jan. 3, the day they were released from custody, and that they admitted attempting to smuggle the marijuana from Thailand to Burms. Vietnam had said that drugs were found aboard the yacht, the Brillig, when the

ship was boarded The yacht is owned by Cornelia Dellenbaugh, 28, of Vero Beach, Fig. She and her two friends apparently sailed from Vietnam Thursday. The Pentagon said today that a U.S. vessel had sighted the yacht and reported the three in good condition.

One of the three, Charles Affel, 30, of Philadelphia, told Mr. Alpert: "We did it for the money. We were taking a simple risk for the money; we were smuggling a drug that we didn't thing was dangerous. We were taking a chance, a risk, a high risk for the money." The third person aboard the yacht was Leland Dickerman, 30, of Flagstaff, Aris. Mr. Affel said the Wetnamese first thought they were spies, but decided they were not after intensive questioning and discovery of the drugs. Then, at a hearing Mr. Alpert was invited to film, the Americans were fined \$243,000 and the marijuana was seized. The Americans said they had insufficient funds to pay the fine and were eventually released after the drugs and an underwater camera were seized and they paid \$465 for room and board.

Last year, Bonn was caught up in another wirefap episode when it was discovered that intelligence officials had bugged the phone of a leading nuclear scientist, believing he had close connections with urban terrorists. The scientist had a casual acquaintance with some of them, but the government later apologized

It was also reported last year that conversations between two leading figures in the Christian Democratic party had been tapped, but it was never discover-ed who had initiated those taps. Some government sources here speculated that the Strauss tap might be a result of interparty squabbling or that it may have cen done without orders from the government.

If Communists Enter

NATO Is Reviewing Italian Securi

By Drew Middleton NEW YORK, Jan. 15 (NYT).-The North Atlantic Treaty Organization, concerned over cuts in the Italian armed forces, is considering the contingencies that might arise if the Communists enter the national government and if Italy eventually withdraws

from the alliance. A statement released by NATO late last month expressed "disquiet at the scale of the reductions in the size of the Italian armed forces, particularly with regard to manpower in the

Now, NATO military and political sources said the alliance must review the steps to be taken if the Communists enter the government, as well as the military consequences of an Italian withdrawal from the alliance.

If Communists enter the Italian cabinet, well-placed sources predicted, all information to Italy on strategic and tactical nucle targets in Eastern Europe would be cut as well as all information on U.S., British and French nuclear planning and weapons production. It would also signal the ousting of Italy from participatien in NATO's nuclear-planning group

lowed a few years ago when Communist leaders were promi-nent in the Portuguese defense

The alliance also would probably transfer its anti-submarine warfare research center from the Italian naval base at La Spezia. The center provides highly sen-sitive scientific and technical advice to NATO navies and air

It is also likely that, if the Communists enter the government, NATO's headquarters for southern Europe, one of its three major commands, would be shifted from its present site outside

Sources at NATO headquarters near Brussels emphasized that Italian withdrawal from the alliance on the insistence of Communist leaders would seriously affect the West's position in the

Even before the present Italian crisis, the alliance reminded the government in Rome that its manpower cuts would occur at a time when NATO "is seriously concerned with the trends in

Botha Underlines 2 Namibia Issues

JOHANNESBURG, Jan. 15 (Reuters).—South African For-eign Minister Piw Botha said tonight that two issues are hampering attempts by his country and five Western nations to find an internationally accept-able independence formula for South-West Afirca (Namibla).. Mr. Botha was epeaking on television about future prospects

of the South African ruled territory which the United Nations has long insisted should be independence. He said tat the problem cen-

ters on the date for an election to get a constituent assembly establishment an don the presence of [South African] troops and in particular the number of troops that have to be in the territory until a new government has been formed."

Buildings Destroyed

In Alabama Explosion AUBURN, Ala., Jan. 15 (AP). -An explosion caused extensive damage here today, destroying several buildings and damaging others but apparently not result ing in death or injury.

Residents said that the blast, the cause of which has not been determined, happened shortly after 9 am. EST. A majority of the businesses in the downtown area were reportedly damaged, and four or five buildings destroyed. The explosion happened in a building housing a restaurant, law offices, a variety store and other smaller stores.

Hong Kong Vice Purge HONG KONG, Jan. 15 (Reu-ters).—Police arrested more than 2,000 persons in their latest crackdown on vice and drug dens and illegal gambling establishments here last month a police. spokesman said today.

the balance" between Western and the Warsaw Pact forces that are "strongly to the West's disadvantage.

Today we have to contemplate an even more serious situation," a senior officer said. "We have to think about NATO withcut Italy."

the deployment of the U.S. Sixth Pleet and other NATO forces in Italian waters. U.S. vessels now use anchorages at Naples and nearby Gaeta and at La Maddalena. British and

Naval sources speculated that

Communist entry into the gov-

ernment might force a review of

French squadrons also Italian ports.

The alliance has assumed that the movement of these vessels is reported by Communist agents. With Communists in the government, the sources said, the Com-

munists would have prior information on the ments of NATO ships and

replenishment vessels that port the Sixth Fleet The consensus was the Italian action that an compromis? loyally is liance would reduce fectiveness of NATO deployments in the Hilita .

Despite the continu NATO regard an Italia drawal as a somewhat possibility. The most pe view is that the appropriate 10,000 U.S. service persons stationed there would have withdrawn from Italy area, for effective navel tions inevitably would in the western basin of the ranean.

A Last-Minute Compromise (180) Rescues Middle East Talks

(Continued from Page 1) with the negotiations between for-eign ministers in Jerusalem.

"I may say we will have now a non-short period of direct negotiations between the committee to establish peace," he told visit-ing U.S. congressmen after the arrival of Egyptian Foreign Min-

Mr. Kamel said that Egypt will stick by its demands for Israeli withdrawal from occupied land and Palestinian self-determina-

Attitudes Harden

The political committee headed by the Israeli and Egyptian foreign ministers was set up by Mr. Begin and Egyptian President Anwar Sadat of when the two leaders met in the Suez Canal town of Ismailia on Christmas Day.

The Ismailia meeting failed to produce a written declaration of itentions regarding a Middle East peace. Since then, both sides' attitudes have hardened and Mr. Sadat has criticized what he regards as Israeli intransi-

Today's revision of the agenda was relayed to the Egyptians through U.S. diplomatic channels. Mr. Kamel was greeted at Ben Garion Airport tonight by Mr. Dayan, who spoke briefly, saying, We are looking forward with much hope to the peace talks between us. We shall listen very carefully and attentively to what you have to say. We will speak frankly and be most forth-

Kamel Takes Sadat Line

Mr. Kamel spoke in a much tougher vein as he espoused the views often enunciated by President Sadat on what was needed to constitute peace. "We come h an open heart and an open mind to build a durable peace," Mr. Kamel said. "We are aware. of the difficulties facing us."

The talks were "at crucial crossroads," he said, adding, There can be no peace with the occupation of land. There can be no peace with the denial of the national rights of the Palestinian people-foremost among which is the right to selfdetermination."

"There can be no durable peace if the peoples of our region can-not then create conditions to live together with a sense of security,

Mr. Karnel said. "Time is of the essence," he said. "So let us invest it to the maximum and not just see it slipping away through our fin-

The agenda dispute illustrated the breach between the two sides key issues euch as the future of about a million Palestinian Arabs on the West Bank and the Gaza Strip and on the future of Israeli settlements in the Sinai Desert, which Israel captured during the 1967 war. .

There also was some pressimism about the peace talks following an interview Mr. Sadat gave the Egyptian weekly magazine October. Mr. Sadat reportedly said that he had "absolutely no hope" that the political committee headed by the foreign ministers would added that Egypt would I adopt another strategy.

The Israelis, the T President reportedly said "stiff-necked" and "cleves chants" who had given him ing in return for his drame bold visit to Jerusalem to the Israeli parliament and duct talks with Mr. Begin.

Approach Would Facilitate Overall Agreement

U.S. Reportedly to Propose Interim Pact on Palestinian Iss

By Bernard Gwertzman

WASHINGTON, Jan. 15 (NYT). -The United States intends to propose that a compromise on the Palestinian question be achieved by eeeking an Israeli-Arab agreement in the near future on temporary arrangement for the West Bank and Gaza Strip, leaving the ultimate future of the Palestinians to negotiations in coming years.

This idea, a refinement of previous U.S. suggestions, was ortlined Friday by an administration official in advance of talks in Jerusalem among Secretary of State Cyrus Vance and the Egyptian and Israeli foreign ministers. The discussions are to begin on Tuesday.

Egypt and Israel in recent. weeks have differed sharply over the solution to the Palestinian question President Anwar Sadat of Egypt has insisted that the Palestinians must have the right to "self-determination," and Prime Minister Menahem Begin of Israel while offering Palestinians

limited "self-rule," has rejected self-determination on the grounds that this could produce a hostile Palestinian state on Israel's borders U.S. negotiators, who have

favored eventual self-determina-tion for the Palestinians if it does not include a separate state, will offer the interim proposal with the hope that it could help overcome obstacles to negotiations. The U.S. approach, the official

said, would have Egypt and Israel agree on a set of principles to govern further detailed negotiations for an overall Arab-Israeli settlement, including the Palestinian question. Egypt and Israe! would concur on a framework outlining procedures for settling the Palestinian question during an interim period of several years

These two documents an overall set of principles and the framework for dealing with the controversial West Bank and Gaza Strip issues are designed to appeal to Jordan and at least some 'moderate" Palestinians so that they could join Egypt and

israel in negotiating details for the West Bank and Gazz Strip agreement The official said that Mr.

Vance would play a more active role in trying to bridge differences between Israel and Egypt than U.S. officials did when inttial Israeli-Egyptian talks began in Cairo last month.

Behind the U.S. idea, the official said was the realization that differences between Egypt and Israel on the Palestinian question were too profound to be easily resolved now.

The Israeli plan offering "selfrule" seeks to have the Israeli military police Palestinian areas indefinitely. Egypt wants an agreement of principles on the West Bank and Gaza Strip to demonstrate that they are not seeking a separate peace with Israel on the Sinai. Insistence on the Palestinians having the right of self-determination carries with it the possibility of an indepen-

dent Palestinian state. The U.S. plan calls for agreement on a temporary formula for governing the West Bank and Palestinian Arabs have By der Israeli military gov since the Israeli occupation

Mr. Begin in his plan said that Israel would its military government and local Arabs would be sh determine their own internal fairs. He also proposed the plan could be reviewed after The U.S. plan would take

five-year review claus translate it into an inte plan of five years in which raeli military government end The Jordanians and I

nians would be involved, in U.S. approach, in working such details as the security rangements for the areas d the interim period, including questions as the number location of Israeli forces. tiations among the intert parties including the Palesti during the interim period determine the ultimate of the Palestinians.

Fugitive Is Seized in '66 Extortion of **U.S. Homosexuals**

NEW ROCHELLE, N.Y., Jan. 5 (NYT).—A 40-year-old man ho fled New York State 11 ears ago after pleading guilty leading a nationwide ring storting money from bomo-exuals has been arrested at he Seattle-Tacoma International

inport by the PSI.
Identified Friday by agents as therman Chadwick Kaminsky, a ative of Baltimore, he was fanica on 84 counts of extortion o several cities.

The cases involved large sums of money paid by among others, congressman, a general who committed suicide rather than e exposed as a homosexual, an idmiral, several show-business igures and businessmen, accordng to investigators.

The ring, which investigators or both the U.S. attorney's office bere and the Manhattan listrict attorney's office once said numbered 30 persons, included a former Chicago police detective who was said to be the leader, some former convicts and young college students. The scheme involved using young homosexuals to lure and compromise victims who were then

2 Women Slain At Florida School

TALLAHASSEE, Pla., Jan. 15 (AP).—An attacker at a Florida State University sorority house beat four young women early to-day while they slept, killing two of them, the police said.

A short time later, someone who the police believe was the same intruder troke into a nearby home and severely beat another young woman student.

The assailant was spotted by one of the sorority house residents as she returned shortly after 3 a.m. from a date. She said she saw a man running down the stairs and out the front door with a club or a piece of wood.

ments to those who retired in

At the same time, the commis sion will urge the administration to spur legislation to provide some retirement benefits to those who leave the military with less than 20 years of active duty.

Sources on the panel said that the current system, which bars retirement benefits to anyone with fewer than 20 years in the military, keeps too many people in the service who may otherwise want to leave and constrains the military from severing its ties to numerous enlisted people and

'It's Not Working'

"The military pension system simply needs drastic reform." said a commission source, "It's unfair. It's not working It's not

Retirement pay is now absorbing a growing share of the military budget, with the cost esti-mated to reach \$10 billion in the new fiscal year. In 1964, military pensions cost only \$1.2 billion.

In a recent report, the Congressional Budget Office warned that the annual cost of the military retirement system could reach \$37 billion by the end of the century an dsaid that revamping the retirement rules could save \$11 billion to \$36 billion between now and the year 2000.

At present, military personnel, who do not contribute to their pension system, can retire at 50 per cent of their base pay after 20 years of service and at 75 per cent of base pay after 30 years of service.

Perhaps the key criticism of the military pension system has been that the bulk of armed forces career personnel leave the services in their early 40s, collect sizable benefits immediately and are able to find civilian jobs to augment their income. Under today's system, about three-quar-ters of all enlisted retirees leavewith either 20 or 21 years of service and about half of all officer retirees leave with 20 or 21 years.

Key Recommendation Sources on the presidential "blue ribbon commission," which is scheduled to complete hearings this week, said that a recommendation would be the overhand of the 20-year retirement system and an effort to reorganize mili-tary pensions based on retirement programs in both the civil service

and private industry.
"There's this peculiar 20-year knot," said a commission mem-"You're virtually forced to stay in for 20 years after your first re-enlistment, and you're practically forced to get out at 26 years when you can collect a good pension and find a job in the civilian world."

Sources said that the commission would recommend that men and women be given full pension benefits only after 55. The ma-jority of the nine-member panel was also reported to be leaning to a proposal that men and women could begin collecting some re-tirement benefits after 10 years of service in an effort to encourage retirement before full pension eligibility is attained, thus end-

ing the "20-year knot." Men and women with less than 30 years on active duty who sought to retire before 55 would earn benefits on a reduced basis, under various steps, as in many civilian retirement programs.

Powerful Pressure Past proposals for reform of military benefits have floundered, largely because of powerful pressure by the military on Congress and the White House to keep the pension system intact. But commission members are privately expressing optimism that Congress is now in the mood to take on

Two traditional allies of the military-Sen. John Stennis, D-Miss., chairman of the Senate Armed Services Committee, and Rep. George Mahon, D-Texas, chairman of the House Appropriations Committee—have told commission members that they are now supporting reform of the pension system because of its high

Moreover, commission mem bers said that Congress and the White House are now aware of the "sizable morale problems" in the military because of uncertainty about the future of the current pension system. "The situaneeds some reform, some resolution," a commission member

The commission has not yet proposed an effective date for its proposals but it is considered unlikely that any of them would be retroactive.

Conflict Delays Anti-Pollution Accord

North-South Split at Mediterranean Talks

By David Fouquet

MONTE CARLO, Jan. 15 (THT) The north-south conflict be-tween environmental concerns and rapid industrialization divided the 17 nations that gathered here last week to discuss pollution in the Mediterranean.

The meeting, sponsored by the United Nations Environment Program, gathered all the countries of the Mediterranean basin except Albania. Although the participants attempted to surmount sometimes bitter political rivalries, the weeklong meeting here ended yesterday as an example of the worldwide split over economic

The Mediterranean countries have moved from a broad "action pian" formulated in Barcelona in 1975 to treaties on general protection against sea poliution, on dumping by ships and sircraft and on combatting oil spills and other cenergencies. Since 1975 the countries and the UN environment agency have measured the pollution in the Mediterranean and developed a network of research, monitoring and planning facilities.

An additional treaty to control pollution of the Mediterranean from land was the topic last week. Experts at the meeting es-

Rain Cuts Power To 250,000 in Northeastern U.S.

NEW YORK, Jan. 15 (AP) .-The Northeast United States was struck by snow and more than 250,000 persons, most of them in the New York City area, were without electricity yesterday as freezing rain caused widespread power failures.

With the temperature predicted bleow freezing as more rain fell. continued power failures were expected. The failures left residents on Long Island, in parts of New York City, and in areas of Virginia, Pennsylvania and Connecticut without electricity.

[United Press International reported that lee toppled tree branches and snapped power ines in the New York City area late Friday night, leaving more than 200,000 customers without electricity yesterday. Repairmen worked to restore power, but icy roads slowed crews attempting to reach the lines.

[:About 8,000 telephone customers were without service because ice snapped phone cables. [Freezing rain and sleet also caused blackouts in the Lehigh and Delaware valleys of Penn-sylvania, UPI said.]

French Alps.

timated that 85 per cent of the sea pollution originales on land and said that any serious effort to clean up the Mediterranean must include curbing pollutants from factories, tourism and municinal waste on shore. They estimated that the bill for this

would exceed \$5 billion. Cesar Solamito, the Monaco representative, said afterward that the problem was one of

"big money."
"We've moved beyond the earlier brotherbood and motherhood agreements," added UNEP deputy executive director Peter

There was nearly unanimous agreement here that the failure to reach an accord means that the already "sick" Mediterranean waters will continue to deteriorate, making more of the region off-limits to bathers and fisher-

North-South Split Although all of the countries represented at the meeting had economic interests to protect, Mr. Thacher characterized the division as largely a north-south split—between the more industrialized and prosperous countries on the northern shore of the Mediterranean and the emerging economies of the south.

The less-developed countries believe that curbing pollution will slow their development. reacted coolly to arguments that it was cheaper to prevent pol-lution that to clean up the damage after it occurs. southern countries-appeared unwilling to assume additional Mediterranean pollution is caused by the industries, heavily populated cities and tourist areas of the north.

Congress Gives Arms Estimate

WASHINGTON, Jan. 15 (UPI). The United States must spend between and \$7 billion for additional tanks, planes and supplies divisions to reinforce NATO in a European war, the Congressional Budget Office said today.

The study on North Atlantic Treaty forces considered the role o fthree divisions added to the active Army since 1974, bringing its total strength to 16 divisions, and their possible use as rein-forcements on the north German plain-the expected location of an eventual Communist attack.

If such items as tanks and artifleryare not positioned in West Germany ahead of time, analysts said, the extra units probably would not be able to get into tattle in time to prevent the loss of strategic territory.

CONSTRUCTION OF ASPHALTIC

OVERLAYS ON ROUTE MI

CONTRACT No. 8/78

PREGUALIFICATION OF TENGERS

The Malawi Government intends to apply the proceeds of a loan from the OPEC Seccial Fund to the construction of assistant overlays to existing 6.7 kilometer bitumen-surfaced carriageways at the tollowing approximate localions on Route M1 in the Central Region of Malawit.

Section 1: 7 km within Lilongwe City, from the Lilongwe River Bridge to the southern City Boundary.

Section 3: 7.5 km between 60 km and 68 km south of the Lillongwe City Boundary

The thickness of asphaltic overlay required is expected to vary between 50 and 100 mm. In certain sections the overlay will consist of a regulating course and a wearing course and it is anticipated that up to 13 km of such double course work will be involved. The work will also include the making-up of the 1.5 m shoulders with naturally occurring gravel macrisis over the full length of the schooluled sections.

If is anticipated that request tenders will be issued in mid-Ma 1978, with a tender period of 40 d.

SCOTT WILSON. KIRKPATRICK AND PARTNERS,

Responses to the questionnaire should reach the Likmowe office of Scott Wilson Kirkostrick & Periners not later than 20th February, 1978.

Tender documents will be issued only to contractors who respond to this notice and can satisfy the pre-qualification requirements of the Malawi Government and no reason for rejections will be given.

destruction or casualties.

"In 1966." a young taxi driver said. "I woke up in my hed after the shock and saw the sky through the roof." Now he seemed to be trying to achieve by reckless driving what nature had spared him a decade ago. But he, too, said that he had felt nothing in his nine-story apartment building in the latest quake.

Later, Tass reported that several weeks before the latest earthouake, scientists had noticed 'anomalous changes in the composition of gases in mineral waters of the Tashkent artesian basin," something that also had been noted during the temblor

Two U.S. seismologists from Los Angeles who are working on an exchanga project in a Ta-dzhik valley said that their Soviet colleagues were obsessed with the idea of developing prediction methods. The two, Brian Tucker and Jerry King, are trying to develop a method that may be as useful in the United States as it would be here—to predict where an earthquake is likely to cause the heaviest damage. Eventually, such knowledge could be used to set construction codes or draw maps of building sites to be

"We hope eventually to be able to predict where, in a sedimentfilled valley, the motion of the earth in a tremor will be the greatest," Mr. Tucker said. "Ul-timately, we would try to predict where in any given valley the damage from a quake would likely be most severe." Los Angeles, he noted, is in such a basin and so is Dushanbe.

Mr. Tucker sald that his project, in the seismologically active Garm Valley, where there is about one small earthquake a day, requires "a lot of traveling around to scattered observation stations."

"Here we can do that with helicopters something that would be terribly expensive in the United States," he said. Carrying out his project with Soviet support made his Netional Science Foundation grant go twice as far, he said. Ha estimated that he would be getting more than \$400,-000 in U.S. government and foundation grants for the threeyear project.

Sound Waves Soviet scientists, Mr. Tucker said, are trying to predict earth-quakes by measuring the speed of acoustic waves through the earth

and leeking for anomalous changes that would be harbingers of major activity. "There's no certainty about this method at all," he said, "but they are going at it hard as they can."

One reason may be the pace of high-rise construction in Du-shanbe and Tashkent, something dictated more by high rates of population growth than by the

safety of new building design.
"Dushaube is growing by 12,000
people a year," said Viktor Konayev, the city's chief architect, "and the city is already as big now as we had predicted it to be by 1980. So now our seismic-proof buildings are 9 to 12 stories high." The city now has a population of

Quake Kills 13 in Japan Resort Area

TOKYO, Jan. 15 (UPI).-The death tell from an earthquake that struck a resort area near Tokye yesterday rose to 13 as rescue work progressed slowly. Twelve persons were still un-accounted fer today.

The government meteorological agency said almost 150 eftershocks have been recorded since a powerful tremor with a mag-nitude of 7 on the Richter scale rumbled through wide areas siong the Pacific Coast of Japan yesterday.

Hardest hit was Izu Peninsula, clustered with hot spring resort towns, about 100 miles wes of Tokyo, where most of the casualties were reported.

Seismologists warned that more after-shocks, including those with a magnitude of 6, may continue for about a month. However, they discounted the possibility that a major quake may follow. Most of the casualties were caused by landslides that buried houses and struck passing vehi-

cles, the police said. There were 18 landslides, and in Instori on the tip of Isu Peninsula a water main was destroyed, Long queues were formed as a ship arrived there today

with water for residents. The police said that about 4,000 tourists were evacuated by ship as railroad and road traffic re-

ing rock in Kawazu.

The earthquake was the strongest to hit the area since May, 1974, when a tremor with a magnitude of 6.3 struck, killing 29 persons and injuring 77.

3 Dead, 4 Hurt in Avalanche Near French Alpine Resort

VAL D'ESERE, France, Jan. 15 (UPD .- An avalanche yesterday swept three persons to their death against the wall of an apartment building, police said.

Four persons were hospitalized after being dug out of the snow by about 200 rescoe workers just outside this Aipline ski resort. Two persons were found unhurt under about three meters of snow which ewept across a service road before coming to rest against the building.

About 1 1/2 meters of snow has fallen in the region in the last 48 hours and police said that they had closed the service road to pedestrians because it is overhung by an outcrop of rock.

Elsewhere in the Alps, 80 persoms were evacuated by ski lift from an apartment building near Tignes because snow had cut off the road, the Col du Lauteret Pass was blocked by snow-and the mountain community of Nevache was declated by an

Officials said that the temperature will start rising tomorrow. Police said that all highways in two porthern provinces-Burgos and Alava were still closed and most others in the northern half of the country were only open to cars equipped with chains.

thin layer of snow for the second time this winter.

Abuses, Injustices Charged

Filipinos Call Farm Training In U.S. a Cheap Labor Scheme

By Wayne King

DURHAM, N.C., Jan. 15 (NYT). -A group of Filipino agricultural trainees working in the United States under a program sponsored by the national 4-H Council and the government of the Philippines have signed a protest statement contending that the program provides no training but estend is a "cheap labor" scheme that has had some of the trainees working 12 to 14 hours a day under bad conditions for three months without a break

The trainees, mostly young men in their 20s, have been loined in their protest by a group of North Carolinians calling themselves the Support Committee for the 4-H Trainees.

Timothy McGioin, head of the group, which is made up of members of the North Carolina Civil Liberties, Union, religious organization and others, said that team members had visited host farms and interviewed trainees

for five months and had found

Chief to Retire In Nicaragua

MONTELIMAR, Nicaragua, Jan. 15 (AP).-Anostesio Somoza says that he will relinquish the presidency of Nicaragua when his term ends in February, 1981.

"I am retiring from the presidency after that but not from my duties as a private citizen," the dictator, 53, said on Friday. Mr. Somoza relinquished the presidency from 1972 to 1974, but continued to run the country as commander of the national guard, the nation's army. He is still the commender and gave no indication that he would give up that post along with the presidency.

Seat Belts in Portugal LISBON, Jan. 15 (Renters).-Motorists and front-seat passengers must wear seat belts outside of Portuguese villages starting today, the Transport Ministry

the program "riddled with abuses ethers stay in warehouse offices port of the and injustices, and documented a labor, net a training prog-

Mr. McGloin, a health worker. said that 4-H officials had acknowledged receiving the complaint statement mailed lest month and supporting documentation provided by his group but had not responded to a demand for a meeting to work out problms, which include complaints of poor living conditions and a failure to account for money owed to the trainees.

Manila Discounts Complaints Officials of the national 4-H Foundation in Washington were not available for comment on the complaints. However, the goveroment of the Philippines has previously said the complaints

were without basis. Several of the trainees, who work in the United States for 18 to 21 months, said that they had been adraid to voice their complaints previously because of fear of reprisals from the martialgovernment of Philippines

President Ferdinand Marcos. However, after being joined by the support committee, 70 of 73 trainees working on the South-east, about balf in North Caroline, drew up and signed what they called "the real situation statement" in which they described their grievances.

Contending that the program is "actually a labor program," the statement said: "We have received any advanced instruction or training in our areas of interest or specialty Our working hours reflect and bespeak the true mature of this program. There are some trainees who work seven days a week, 12 to 14 hours per day. Some of us have not had a day off for three months. We shove! manure, hed posts, count eggs, clear farmland, construct farm buildings, mow lawns, pick grapes and we do this all day

long throughout our stay." As to living conditions, the complaint says, "some [of us] live in eld trailers without screens or adequate ventilation.

16. Your girlfriend forgot to write.

(Another good reason to call home.)

An international call is the next best thing to being there.

converted to bedrooms." The trainees also complained about "financial accountability," They receive \$65 a month spending money while in the United States, paid directly to them, and \$275 more in wages paid to the national 4-H Council.

Travel money and administrative costs are deducted, and the rest is paid to the trainee after his 18-month tour is over and he is returning to the Philip-

The trainees say there is no detailed financial accounting and that most of them go back to the Philippines with only a few hundred dollars." Program Began in 1974

The 73 trainees in the Southeast are part of 201 now in the United States in what are called Group C and D, the two most recent groups to be sent to the United States under the program, which began in 1974 "Unfortunately," says the re-

Giscard Outlines Accord Linking Europe, Africa

YAMOUSSORRO, Ivory Coast, Jan. 15 (Reuters).—French President Valery Giscard d'Estaing today outlined a plan to link Eqrope and Africa in a solidarity

The French President, who later left for home after a five-day visit here, said that his proposal would ensure Africa's military security as well as its economic development.

He said that its establishment wee on the agenda of the next European Common Market summit meeting.

He added the pact would be worked out along the same lines as the process of East-West de-tente and the main subjects discussed under its terms would be security and economic and cultural cooperation.

He said it would include all-African countries with majority rule, while times practising dis-crimination or minority rule would be excluded. He did not specify which countries would be mem-

"it cannot be said that the bad

conditions and discrepancies in the program are restricted to the southern part of the United States, nor that this recent protest by trainers is the first to have occurred." In June, a number of trainees

returning to the Philippines complained to the Oskland (Calif.) Tribune about the program. One trainee complained that he had received a check for \$135.80 for his 18 months' work with ne detailed accounting. Another told of having to live in a converted chicken coop with no hot water or tollet facilities A Philippine 4-H Council inquiry after that incident said that interviews with current participants had found that "most were well satisfied with their own onthe-job-training experience, living conditions and cultural ex-

change opportunities." The trainees, in their protest, now call that evaluation "a cover-up" and say in their own report that conditions have not

Long Day Described

Typical of the complaints are those of Juliano Lagudas, 26, who is now working on a turkey farm near Marston, N.C. In an interview, Mr. Lagudas, who had been an insurance salesman in the Philippines with an interest in large-scale swine farming, said that he worked six days a week from 6:80 a.m. to 6:30 p.m. with an hour for lunch. "We pick up the eggs, check the fence, get loose birds, pick up dead ones, pack the eggs, that's all, he said. Although he was interested in swine production, Mr. Lagudes said he had asked for a transferfrom an Iowa hog farm because of the working conditions.

"I was scooping manure during hiszards, 36 below zero," he said. "I was spreading manure in the fields, scooping corn, mowing weeds along fence roads." During the 14 months on the

farm, he said, he lost 29 pounds because of work and the food he He said that he would return

to the Philippines in March, but had no idea how much money he would take with him. Initially, he said, money was not his first concern, because he had come here to learn swine faming to be shie to return to the Philippines and practice it,

"But I have learned nothing." he said, "except possibly how to work hard every day for no reason for myself."

Ethiopia Accuses Carter of Provoking War

Thursday

NAIROBI, Jan 15 (AP) .- The Ethiopian government accused President Carter yesterday of having provoked the Ogaden war and strongly hinted at a pos-sible break in diplomatic relations with Washington.

The Ethiopian allegation was made in an Ethiopian Foreign Ministry statement issued in rebuttal to President Carter's remark Thursday that the Soviet military involvement in the Horn of Africa has contributed to the undeclared war being fought between Ethiopia and Somalia.

"In view of the fact that the infatuous Somelia ruling clique has... unleased a wanton and unprovoked aggression against Ethiopia, how can Mr. Carter doubt that the responsibility for the disturbances of peace and stability in the region is squarely with Somalia?" the statement asked, according to Ethiopia's official news agency.

"It was the administration, and in particular Mr. Carter, that prodded the Somelia expansionists to launch their aggression against Ethiopia, Ethiopia, therefore, considers that the U.S. administration shares responsibility.

"Ethiopia believes that, if the U.S. government continues its policy of interference and support for the Somalia aggressors, such an irresponsible act will inevitable force Ethiopia to reconsider the framework of her relationship with the American government the statement said

Last year a U.S. news maga-zine reported that Somali President Mohammen Stad Barre sent his U.S. physician and adviser, Dr. Kevin Cahill, to Washington in June to check the possibility of Somalia receiving U.S. arms as an alternative to Somalia's then intal reliance on Soviet weapons. Mr. Cahill was told by State Department officials that the United States would not be

like all of them, he chants this mantra at least 1,728 times a day:
"Hare Krishna, Hare Krishna,

rama, hare rama, rama rama, The chant, which has been sung on hundreds of U.S. street corners in the 12 years since Krishna Consciousness started in New Yerk City, was the motif of the weekend here, with crowds shouting it to the beat of drums and cymbals as each statue of Krishna was anointed, as each of the huge teak and brass temple doors was opened, and as marigolds and bananas were laid in offering beside the silver-plat-

ed altars Indian Officials Attend

But one difference between this celebration and the performances in the United States was that India's health minister and other government officials were among the speakers at the dedication from Mami Beach put it, "When we come to India, we are coming home."

Spiritualism is common in India, and several thousand Indians visited the new temple during the opening ceremony, joining in the chant of homege te Krishns, a Hindu god, and responding with alscrity when the U.S. monks greated them in the Hindu fashion, their palms pressed together

Gaullists Decide To Contest Seats Of Giscard Party

PARIS, Jan. 15 (Reuters).-The Gaullist party today challenged the aethority of President Valery Giscard d'Estaing by announcing candidates to run against prominent members of the President's Republican party in the March elections

The Gaullists, who fell out with their government coalition part ners last week, said that they would oppose Transport Minister Michel Cavaillé, Jacques Dominati, secretary of state at the Prime Minister's office, and the secretary-general of the Republican party, Jean-Pierre Soisson,

Leaders of the Centrist, Radical and Republican parties broke with the Gaullists last week by saying that they would present one joint candidate in 370 of 491 constituencies. The Gaullists accused their partners of conspiracy and scrapped plans to field a joint candidate in 100 other constituencies.

Meanwhile, French Socialist leader François Mitterrand predicted, in an interview to be published tomorrow in L'Express, that the left would win the election if his party reaches an agreement

with the Communists. Mr. Mitterrand said that, with a Communist-Socialist agreement on candidates for the second round of the voting, the parties of the left would win

Poll Finds Canal Support of Pacts Depends on Defense Assurance

NEW YORK, Jan. 15 (AP).-Although a majority of U.S. citizens still opposes the Panama Canal treaties, everwhelming support would be gained if the United States is assured the right to defend the waterway, a new Associated Press-NBC News

The poll's results were released on Friday after Senate Majority Leader Robert Byrd of West Virginia announced that he would support the treatles with modifications, including a clear guarantee of the U.S. right to defend the canal.

The 1,684 adults, interviewed by telephone last Tuesday and Wednesday, were asked if they had heard er read about the treaties. About 77 per cent said yes, 22 per cent ne and 1 per cent were not sure. Of those who had heard about the treaties, 62 per cent opposed ratification by the Senate, 28 per cent were

in favor of approval and 10 per cent were uncertain.

When the respondents were asked if they would favor the treaties if an amendment were edded specifically giving the United States the right to intervene if the canal is threatened by attack, tha treaties won overwhelming support of those nihar with the agreements; 65 per cent favored the amended treaties, 25 per cent opposed them and 10 per cent were not sure.

Krishna Sect Comes of Age In India Temple Dedication

By William Borders

JUHU, India, Jan. 15 (NYT). Several hundred Hare Krishna followers, chanting, singing and clapping, opened a \$2-million temple and cultural center here during the weekend in a colorful festival of devotion.

To the young U.S. members the religion, the dedication of the elaborate carved marble temple on the coast of the Arabian Sea here 10 miles north of Bornbay symbolized a kind of coming of age for the sect, which they hope is becoming less controversial.

We are gaining a broader base among the general public, in both India and America," said Ternal Krishna, 32, a New Yorker who is a member of the organization's 23-member governing board. "We're learning that there's no way we're going in give Krishna ciousness a general appeal if we make everyone shave their heads and chant 'Hare Krishna'

Death Penalty Upheld In Iranian Spy Case

TEHRAN, Jan. 15 (Reuters).military appeals tribunal today pheld the death penalty imposed by a lower court on a senior Education Ministry official. All Naq! Rabbani, who confessed to spying for 30 years for a foreign

Rabbani, 56, is the second man condemned to death by Iran ln the last month for spying. A senior army officer, Maj. Gen. Ahmed Mogarebbi. was executed on Dec. 25 for spying for 40 years for a foreign power. In both cases, the country was identified in court only as "the northern neighbor." but newspapers today named the foreign power as the Soviet

phrey's wish that he repeat it

and invite the essembled mourners to join in, he sang it again. Afterward, the military honor guard, drawn from all the services, slowly carried the casket out of the rotunds, into the cloudy, 29-degree cold, where the VIS. Marine band greeted it with "Ruffles and Flourishes" and "Ruffles and Flourishes" and "Hail, Columbia." Slowly, they bore the former vice-president's body down the steps of the Capitol to a waiting hearse for the drive through the snow-cov-

Fire Base, in nearby Maryland. There is was placed aboard the breakdent's jet, Air Force One, for the return flight to Minnesota, where Sen. Humpferey will be in state in the State Capitol at St. Faul before his funeral and burial temerrow afternoon in Minnea-

ered countryside to Andrews Air

President Carter and former President Ford will attend the Minnesota services.

Family at Belside

The presidential plane that carried Sen. Humphrey's body here is the same one that brought the body of the slain President John Kennedy back to Washington and carried President John Kennedy back to Washington and carried President Lyndon Jatazon's body to Wash-

ington for mourning ceremoniec. Mr. Humphrey death, of inoperable pelvio cancer, occur ed at 9.25 p.m. Friday as he lay in a come at his lakeside home in Waverly, about 40 miles west of Minneapolis. At his bedside were his wife, their three sons, Hubert III, Robert and Douglas, and their daughter, Mrs. Nancy

President Carter's statement yesterday summed up the nation's affection and regard for Sen. Humphrey. Mr. Carter said:

"From time to time, our nation is blessed by the presence of men and women who bear the mark of greatness, who help us see a better vision of what we can become. Hubert Humphrey was such a man.

"For 30 years, his voice was heard from one end of this country to the other-most often in defense of the oppressed, the hungry the victims of poverty and discrimination. All of ns will miss that voice. It was as familiar to Americans as the voicing of a member of their family. And, in a sense, Hubert Humphrey was a member of every family

in America. "Hubert Humphrey was a fundamentally happy man, a man who really did love his fellow human beings, and in victory and in defeat he set an example for

generosity, sincerity, and hope. The only thing more couragecus than the way in which he led his life was the manner in which he left it.

"In our laws and institutions, his memorials will endure. The most lasting of them will be in cur hearts. Rosalynn and I extend our deepest sympathy to Muriel Humphrey.

Newspaper in Beirut Damaged in Bombing

BETRUT, Jan. 15 (AP).-A tomb attack damaged the offices of a leftist newspaper here and ertillery due's in south Lebanon claimed 18 casualties yesterday, authorities reported.

Police said that a local newsmen was killed in an overnight tomb attack that damaged the offices of the pro-Libyan newspaper Al-Kifah Al-Arabi. The rightist Voice of Lebanon radio station reported that Christian gunners in the southern strongholds of Klein and Marjayoun, just north of Israel, exchanged with Palestinians in the neighboring town of Nabativet.

Obituaries

Joseph McCarthy, Managed N. Y. Yankees to 8 League Championships

-Joseph V. McCarthy, 90, the baseball manager who led the New York Yankees to eight Imerican League pennants, died Friday in Millard Fillmore Hosottal in Buffalo.

Mr. McCarthy died of pneumonia, the hospital said. He entered the hospital in Novem-

He was either "a pushbutton nanager," in the words of Jimmie Dykes, or "the greatest manager who ever lived," in the words of Edward Barrow, who hired him for the Yankees in 1931.

Whatever he was, Joseph Vincent McCarthy—elected to the Baseball Hall of Fame in 1957 became the most successful baseball manager of his time and formed the middle link in the chain of Yankee achievements during the last half-century.

He was a stocky, 5-foot 8-inch-tall Philadelphian with a strong a conservative outlook—the master of the noncommittal reply and the devotee of the set lineup. He had neither the quiet desperation of Miller Huggins, who preceded him as the Yankee mpire-builder, nor the flam-

boyance of Casey Stengel. But, like them, he called the signals for some of the most celebrated players in history, from Babe Ruth to Joe Distaggio. And, like them, he produced winners consistently.

15 Seasons With Yankees Mr. McCarthy, who never played in the major leagues, joined the Yankees after they had won six American League pennants under Huggins in the 1920s, He led them for 15 full seasons; win-

ning seven World Series titles in his eight appearances. Later, during the Stengel era through the 1950s, the Yankees won 10 more pennants. And by the time the empire plunged into decline after the 1964 season, the Yankees had taken 29 pennants

and 29 world titles in 45 years. The middle years in this remarkable stretch fell to Mr Mc-Carthy, who had spent 20 sea-sens as player and manager in the minor leagues before becoming manager of the Chicago Cubs of 1926. Three years later, they won the National League pennant, and two years after theo Mr. McCarthy switched to the Yankees. He left them in 1946, sat cut one season, then

British Refuse To Fire Judge For Alleged Slur

LONDON, Jan. 15 (UPI). - A over an allegedly racist charge to a jury will remain a judge but wi'l hear no more race cases, the n-tion's top legal official has

aunounced. The Lord Chancellor, Lord Ewyn-Jones, said that Judge Nell McKinnon requested "that cases relaing issues comparable to those which arose in the [John Kingslev] Read case were not listed

before him. Mr. Read was charged with uring racist expressions at a public meeting as an incitement to violence. In his summing up Judge McKinnon to'd the jury that it was no crime to ure the words "niggers, wors and coon".

Mr. Read was acquitted. Following protests by immiar nt groups and civil libertar-Lord Elwyn-Jones demended the trial transcript and

goestioned Judge Wakinnon. The Lord Chancellor refused to fire Judge McKinnon, saying last week thit his explanation was ertisfactory. But he said that, et his own request, the judge would try no more cases involv-

Muzorewa Says Rhodesian Talks Move Too Slowly

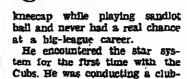

SALISBURY, Jan. 15 (Renters) -A black nationalist leader said today that Rhodesian settlement talks were progressing much too slowly, while a prominent white politician attacked the government for going too far.

Bishop Abel Muzorewa, whose United African National Council claims to represent 95 per cent of Rhodesia's 6.5 million blacks. said that the talks were "far, far tco protracted and s'ow."

Ian Sandeman, president of the hard-line Rhodesian Action Party, said that Rhodesian morale was at an all-time low, white emigration was high and that there had been a severe increase in terrorism. "This is set against a statement by the Prime Minister at the general election Clast Angust] that there would be no African majority rule," he said. The talks are to resume this week. Agreement has been reached on the number of seats whites should have in a parliament of a majority-ruled Zimbabwe. The negotiators must settle the number of votes required to change cleuses in a new constitution to safeguard white interests, and the length of time such a protective mechanism would last

5 Die at Ganges River

NEW DELHI, Jan. 15 (AP),-Five persons were killed and 24 injured today when thousands of Hindu pligrims stampeded into the holy Ganges River where it joins the Bay of Bengal at Sagar cy reported.

Cubs. He was conducting a clubbouse briefing that first spring when Grover Cleveland Alexander strolled in just as Mr. McCarthy was saying, "Now, suppose we get a man on sect the great pitchers ander one of the great pitchers and great individualists in the business, commented: "You don't have to warry about

that, Mr. McCarthy. This club will never get a man that far." A month later, Mr. McCarthy sold Alexander to the St. Louis Cardinals and, amid the catcalls got a telegram from Wrigley that "Congratulations. For years

I've been looking for a manager who had the nerve to do that."
With the Yankees, he was in the New York dugout during many of the most dramatic moments in sports history. But before he did, he had to solve the problem of Babe Ruth: the homerun hitter supreme, the demigod leader of a rousing bunch of baseball heroes, a law unto himself. Ruth also nourished the hope of some day managing the Yankees

Mr. McCarthy met that challenge by avoiding any direct clash, even though the strategy involved a bending of his usual policy that players were to be treated alike. He pretty much let Ruth do as he pleased, and in return the Babe stayed more or less in line and kept hitting home runs.

Report Savs 17% In N.Y. Asylums Could Go Home

ALBANY, N.Y., Jan. 15 (NYT). A two-year survey of New York State's mental health system has found that more than a fourth of the 26,000 adult patients in mental hospitals "do not have sufficient behavioral manifestations of a mental illness to require care in a mental hospital." The survey, completed last year by state health authorities, found that 17.5 per cent of the patients are capable of living either by themselves, with families or io adult homes, halfway houses or boarding houses. A total of 10.6 per cent would require care in nursing homes health-related facilities that ere less restrictive than mental

hospita's, The patients cannot be dis-charged, mental health officials acknowledged, because there are not enough community facilities

to handle them. The disclosure of the findings comes amid political criticism of the state's oolicy of discharging mental patients deemed fit to leave state hospitals. Many legislators and community leed-"dumping" mental patients into localities - particularly on Long Island and on Manhattan's West Side-without providing money to care for theor.

Hubert Humphrey's Legacy

Hubert Humphrey and death seemed intrinsically incompatible. Few human beings have ever been in love with life or enjoyed life's challenge and variety more than he did. He gave unstintingly of his heart, mind, imagination and physical energy, and he left America a better country for his efforts.

Hobert Humphrey was preeminently a man of the United States Senate. He was an orator, a legislator, a conciliator. He was uot an administrator or even an effective politician when his own larger ambitions were at stake; he too often put loyalty to others above single-minded self-interest and kindliness to subordinates ahead of the dictates of efficiency. Thus, he was not always successful, but be was always much loved.

Like other giants in the history of the Senate—Robert Taft, Robert La Follette, Henry Clay, Daniel Webster, John Calhoun-Hobert Humphrey hungered for the presidency and sou, ht it repeatedly and in vain. He came close in 1968 when, after having served as vice-presider t under Lyndon Johnson, he became the presidential nominee of his party. But the antagonisms stirred by the Vietnam war were too great for him to overcome. That he came so close to doing so-despite vilification from both ends of the political spectrum—was a tribute to Humphrey's courage and powers of per-

It was deeply ironic that his association with President Johnson and the Vietnam debacle denied him the White House because so much of Humphrey's political life was devoted to the cause of peace. He played a large part in the legislation that led to the Peace Corps, the Arms Control and Disarmament Agency, the partial nuclear test ban treaty of 1963, and the Food for Peace program. When he returned to the Senate in 1971, he became the strong man of the Foreign Relations Committee, where his ablding interests were strengthening economic assistance programs for the poorer countries and trying to avert famine and malnutrition. The fate of Israel was another cause that engaged his deep interest: he was first elected to the Senate in the same year that Israel achieved independence, was a frequent visitor to the young country and came to feel a profoond affinity for its people.

Hubert Humphrey burst upon the national political scene at the 1948 Democratic National Convention when he delivered the principal speech for a strong civil rights plank. "There are those who say to you 'We are rushing this issue of civil rights.' I say we are 172 years late. There are those who say, 'This issue of civil rights is an infringement of states' rights.' The time has arrived for the Democratic party to get out of the shadow of states' rights and walk forthrightly into the bright sunshine of human rights. People-human beings-this is the issue of the 20th century." Probably his proudest accomplishment as a legislator was the Comprehensive Civil Rights Act of 1964, which he led to final enactment through months of filtbuster, parliamentary maneuver and public pressure.

His commitment to racial equality was central to the decent, humane liberalism that touched numerous other concerns, from conservation to health care and welfare reform. He sponsored the Wilderness Act, fought for Medicare and national health insurance, urged a program to assure a joh for every American who seeks one, and showed as much concern for the nation's cities as for its marginal dairy farmers. Reared in a small town on the prairies, he was always an enemy of provincialism and bigotry and an exemplar of American idealism.

The ordeal of his last months may have been eased by a cascade of public tributes, in the Senate and elsewhere; the headquarters building of the Department of Health, Education and Welfare was named for him. It is given to few to be so honored while yet alive, something he recognized with a characteristic twinkle a few days ago. "You can cut back on the funeral," he told an aide, 'because all the eulogies already have been delivered."

In his ill-fated presidential campaign in 1968, Humphrey was derided for his slogan, "the politics of happiness." But to those who knew him, the term was an accurate and sincere reflection of his personality. He was truly a cheerful, bouncy, warmhearted man who wished good things for all God's

THE NEW YORK TIMES.

Haste, Waste, Virtue at Sea

bers of Congress must have felt very good when they voted, in last month's Christmas rush, to extend the nation's prohibitions against the dumping of oil and other hazardous substances to 200 miles from American shores. But as the Carter administration argued in vain, the legislation-combined with the unilateral extension of our coastal fishing zones in 1976—goes a long way toward encouraging and legitimizing other prohibitions in the waters up to 200 miles from other coasts. Like prohibitions on the passage of American military vessels, perhaps even certain commercial ships. The United States has been struggling to preserve the principle that any interference with activity in the open sea should occur only by international treaty and not, as in clearly coastal waters, by the actions of individual states. Congress muddled the waters.

It acted at the urging of environmental groups eager to eurb tha leakage or deliberate discharge of oil and other hazardous substances, which have been polluting ocean areas and the coastlines of many countries. The law already controls such dumping out 12 miles from shore and imposes high standards of construction and maintenance on all vessels that call at American ports. And the administration is working with other governments to write international standards in this field for regions beyond the 12-mile zone. A little patience might have solved the problem. In any case, unilateral action

Virtue is not always virtuous. Many mem- by the United States only opens the door much more restrictive regulation by other nations. Eight Western European governments that share Washington's interest in an orderly oceans regime have already lodged protests against the measure. More protests are likely.

> The State Department and Defense Department both opposed the law, hut President Carter could not veto the legislation without losing the important and otherwise admirable Clean Water Act of 1977 to which it was attached. The administration is now debating how to undo the damage. State and Defense are urging the Environmental Protection Agency to write regulations that would initially apply only 12 miles out to sea. The agency insists that it has no choice hot promptly to obey the intent of Congress.

Circumventing the law seems a poor way to deal with poor law. The official who heads our delegation to the United Nations Conference on the Law of the Sea, former secretary of everything Elliot Richardson, is urging Congress to repeal the measure cleanly in this year's sessions. If the leaders of Congress would show some sympathy for the idea, the EPA might defensibly be persuaded also to delay writing its regulations. As a giant maritime power, the United States has many diverse interests on the high seas. Keeping them clean is clearly one-but only one.

THE NEW YORK TIMES.

International Opinion

So Much Confusion

The answer [to the question of how to restore the international value of the dollar without disrupting world trade) is for the American trade deficit, stimulating world trade, to be removed only gradually over the next two years or so and for the dollar to be steadied by international management, But such a smooth adjostment to economic reality will not be easy to concert when there is so much confusion about American policy, normally the very heart of leadership. Once he is rested from his Indian journeys, Mr. [James] Callaghan [the Prime Minister of Britain] might give Mr. [Helmut) Schmidt Ithe Chancellor of West Germany) a call and see if they can get together and arrange another summit with

print for world money.

Referendum in Chile

Few people will believe that the events of [Jan. 4] constitute a fair and accurate sounding of public opinion as understood in the Western world. The haste with which the exercise was mounted, the absence of electoral rolls, which were destroyed earlier by the junta, the lack of facilities for Gen. Pinochet's opponents to put their case to the voters and the fact that there was no impartial authority to oversee the voting or the count are some of the factors which must cast the gravest doubts over the validity of the ootcome.

Committee Campaigns Against Pain

By William F. Buckley Jr.

NEW YORK.—Not many years ago, reaching home from the city. I discovered the normally imperturbable lady who has cooked for my family for a quarter century far gone in weeping. She is an elderly and hardy Cuban black who early in life suffered a lifetime's ration of sorrow and pain, and for that reason her tears were not treated as though caused by a collapsed soufflé. I got the story from her in spurts. A message, through an inter-mediary in Miami. Her sister. Dying of cancer in Havana. Miserable pain. No morphine, because Castro's supply was avail-

able only to the army. I called my favorite doctor. Out of town on a fishing trip, un-

Polly Wants a Visa In your People column Dec. 22 there was an interesting parrot

story, which reminded me of one

I heard recently in Israel.

A Jew in Russia owned a parrot that had a habit of saying "Down with Communism." While awaiting a visa to leave Russia he had a terrible fear the police would one day come and search his flat so as to have reason to refuse his request to leave. The inteful day arrived, a knock on the door and he suddenly remembered the parrot, grabbed it and threw it in the freezer. The police entered, looked around and left. With a sigh of relief he opened the freezer and released the frezen bird. As he thawed the parrot said. "Praise Mother Russia..." His owner remarked "One hour in Siberia and you are already

MURRAY S. CREENFIELD.

Soviet Shifts in Africa Causing U.S. to Rethink

By James Reston

WASHINGTON-The Carter on the President's recent visit to administration is now reviewing its relations with the Soviet Union in the light of several puzzling and even alarming developments:

· According to U.S. intelligence reports, the U.S.S.R. is not only continuing its military airlift into Ethlopia, but now has about 1,000 troops in that country and has dispatched several armed frigates to the area.

· These same official reports indicate that Cubs now has more than 2,000 troops in Ethiopia, and that these combined forces seem to be moving from the role of "advisers," and "trainers," that of "participants" in the fighting.

· Meanwhile, the Soviets are reported to be building up their base of operations at Aden in Southern Yemen on the Gulf of Aden near the southern entrance to the Red Sea as a substitute for the base they lost when the Somalis closed their

Basic Questions

This raises some fundamental political and strategic questions. For if the Soviets and Cubans help Ethiopia to capture the coastline of Somalia in the Gulf of Aden and the Indian Ocean, they will be in a position to control the southern gate of the Red Sea, dominate the Red Sea coast of Saudi Arabia, and put extreme pressure on the Saudis, who are the main financial support of President Sadat of Egypt in his effort to negotiate a compromise settlement with Israel in the Middle East.

This was one of the main subjects for discussion between the Saudis and President Carter

jective is to sweep away the U.S.

Hubert Humphrey—Minnesota's 'Happy Warrior'

WASHINGTON, Jan. Hubert Horatio Humphrey was one of the most remarkable public figures of his time. But the goal he most desired the presidency, eluded him.

The Minnesota Democrat, a liberal in the New Deal tradition, ran for president in 1960. 1968 and 1972 and seriously considered a fourth try in 1974.

He almost succeeded in 1968 when he was Lyndon Johnson's vice-president. That was the only time he won the Democratic presidential nomination and he lost to Richard Nixon by fewer than 500,000 votes. His defeat was due in large measure to his liberal friends deserting him because of his support of Mr. Johnson's Vietnam war effort.

Although Mr. Humphrey returned in 1971 to the Senate, where he had served 16 years before his election as vice-presi dent, misfortune and disappointments continued to dog him.

Illness Begins Doctors discovered in 1968 that

he had carcinoma in situ (cancerlike cells confined to a single site) in his bladder, Some of his doctors advocated immediate surgery but a majority favored watching and waiting. In 1973 he underwent radiation treatment for what was termed an "equivocal" or possibly cancerous change. The treatments left him badly weakened and forced him to curtail his customary hectic pace. But he slowly recovered and seemed to have become the Humphrey of old—eloquent hnt often longwinded, imaginative and constantly on the go.

It was frequently said that Mr. Humphrey had more solutions than there were problems. Regardless of the problem, be it an Arah oil boycott or domestic unemployment, he had ideas about

what the government should do. When Mr. Humphrey was in good health and good spirits he virtually radiated joy. It was thus no accident that his staff borrowed the label that Franklin Roosevelt gave to Al Smith, the 1928 Democratic presidential nomince, and christened Mr. Hum phrey's 1964 vice - presidential campaign plane the 'Happy War-

The campaign probably was the happlest one of Mr. Humphrey's career. He was fresh from his triumph as Senate floor manager of the 1964 Civil Rights Act, Vietnam had not emerged as an ugly issue and Mr. Humphrey at the time had scarcely a care. The "happy warrior" tag fit him perfectly and continued to do so in later years, despite the wounds o; his futile presidential cam-

As the 1976 presidential campaign developed, Mr. Humphrey, saddened and embittered by his three previous White House endeavors, insisted that he would not become a candidate but said would b offered the nomination.

Stays Out

Many of his longtime supporters refused, however, to take no as his answer and for a brief time in the spring he wavered under the pressure. He wound up refusing to enter any of the primaries or do anything to try to stop Jimmy Carter's steam-

With a heavy heart," Mr. Humphrey told a crowded Capitoi press conference on April 29, 1976. that he had reached the decision not to run again. His eyes were glistening with tears as he read his prepared statement with his wife Murlel at his skie.

As the presidential campaign began moving into high gear in September, Mr. Humphrey entered the Bethesda Naval Medical Center and doctors found he had a cancerous bladder. The hiadder was removed on Oct. 7 at New York's Memorial Sloan-Kettering Cancer Center.

Once again, Mr. Humphrey's health suffered a staggering setback. But within six weeks he returned to his Senate office and resumed another campaign: Before entering the hospital he had decided to run for Senate majority leader, a post being va-

Taking a break from the 1968 campaign, Sen. Humphrey tinkers with his Model T.

cated by the retirement of Sen. Mike Mansfield, D-Mont. It was another example of Mr. Humphrey's unlucky timing. Sen. Robert Byrd, D-W. Va., who as majority whip held the job that Mr. Humphrey had before becoming vice-president, entered the race for leader in early March when Sen. Mansfield announced his retirement. At the end of March, Sen. Byrd claimed he had enough commitments from his Democratic colleagues to insure his victory when the 95th Congress met the following January. In March, Mr. Humphrey was still toying with the thought that a deadlocked Democratic conven-

Hoped to Beat Byrd.

tion might turn to him for its

presidential candidate and he

hesitated about the Senate lead-

ership race.

Following his operation, Mr. Humphrey continued to profess optimism that he could beat Sen. Byrd, but his optimism was shared by few.

In addition to his poor timing. Mr. Humphrey had another handicap in opposing Sen. Byrd. With Mr. Carter's election as not feel a need for an eloquent spokesman as leader, which might not have been the case had Republican Gerald Ford retained

the presidency. Furthermore, Sen. Byrd had proved himself over the years as highly skilled technician in pushing legislation through the often unwieldy Senate. Mr. Huminterest or talent in that direction. Thus, while Senate Democrats may have sentimentally meferred Mr. Humphrey, they turned pragmatically to Sen, Byrd and elected him by accia-

Mr. Humphrey'e colleagues were shocked by his appearance on the opening day of the 95th Congress on Jan. 4, 1977. He was ashen, haggard and thin-the result of chemotherapy treatment and an attack of the flu. There him a sentimental reward for his years of service.

The following day the Democratic caucus unanimously voted to give him a \$7,450-a-year pay raise, a chauffeured limousine, membership in the Democratic eadership, a Capitol office and staff and a new title as deputy president pro tempore of the

This presumably will be an honor to be accorded any future president or vice-president elected to the Senate

For Mr. Humphrey, it was an honor more of symbolism than substance hat he gratefully accepted. He had become almost a symbol himself—a symbol of the "happy warrior" who was a towering figure in U.S. politics

for so many years. Last October, the Senate paid special tribute to Sen. Hump when he returned to the Capital after an 11-week absence and a second operation for cancer, A seven-minute ovation greeted him as he walked into the chamber. Responding, he told the senators -while crowds looked down from the jammed galleries—that "the greatest gift in life is friendship, and I have it." Then, Democrats and Republicans joined in praise of the Minnesotan, Said Sen. Wendell Anderson, D-Minn.: "To those who say there no longer are any heroes in the world, I say, You don't know Hubert Hum-

A week later, the House paid similar tribute. In an unprecedented special session—the House never before had interrupted its work to pay honor to a senatorpraise showered down. Speaker Thomas O'Nell; D-Mass, called Sen, Humphrey "the most genuine liberal this country has ever pro-

Mr. Humphrey's political career.

spanning a third of a century saw him help found and later head Americans for Democratio Action, lead the drive in Congress for disarmament and a nuclear test ban treaty, father the Peace Corps, shepherd the major civil rights bills through the Senate and win election as vice-president in the Lyndon

Johnson landslide of 1964. Earlier, at the age of 33, he had almost single-handedly taken a broke and splintered Demo-eratic party in Minnesota, merged it with the Farmer-Labor party and carried the state for Franklin Roosevelt in 1944, with no help from the national party structure, which had given up the state to Thomas Dewey.

Civil Rights Champion

After one miss in 1943, Mr. Humphrey was elected mayor of Minneapolis in 1945 and with the help of a tough sheriff named Ed Ryan, he cleaned ont the organized crime that bad flourished in the city during World War IL

states' rights and walk forthrightly into the bright sunshine of human rights." It triggered a huge demonstration and tipped the balance in favor of the strong minority report on civil rights The Southern Democrate promptly walked out of the Philadelphia audito-

zium and held their own Dixiecrat meeting in Birmingham, Ala, It took 20 years for Mr. Humphrey to crase the stigma attach. ed to his name in the South as a

result of that speech His first bid for the presidential nomination, in 1960, was foiled. mostly because of a primary loss in heavily Protestant West Virginia to John Kennedy, a Roman Catholic. The Kennedy victory resolved most of the fears of party leaders that Mr. Kennedy's religion made him a risky can-

The Country Wasn't Ready'

After his narrow defeat by Mr. Nixon in 1968, Mr. Eumphrey told a friend in Washington, "I was ready for it. I was prepared to be president. I knew what the country needed ... But I guess the country wasn't ready for

Nor was it ready four years later, when he jumped into the primaries at the last minute, winning a few but losing the big one, in California, to Sen.

George McGovern (D-S.D.). Mr. Humphrey returned to the Senate in 1970, easily winning election to the sest vacated by Eugene McCarthy. His victory continued the Democratic-Farmer-Labor party domination of Minnesota that had begun with his 235,000-vote victory in 1948 over Republican Sen, Joseph Ball.

Mr. Humphrey's liberalism as well as his political ambition had its roots in his South Dakota childhood. He was horn on May. 27, 1911, above the family drugstore in Wallace. His father was of Weish ex-

crat among Republicans and the idol of Hubert, his youngest son. His mother was Norwegian, stubborn, practical and domineering. As one biographer has said, Mr. Humphrey respected his mother

but revered his father. Mr. Humphrey'e father, converted from Republicanism by the Midwestern populist William Jennings Bryan, instilled the liberal principles of the time into his son. The writings of Woodrow Wilson and Bryan as well as Thomas Paine and Thomas Jefferson were thrust upon him,

Thus, Hubert jr. was well pre-pared for the New Deal principles soon to be expounded by Franklin

elected to the South Dakota Leg-

islature—was a favorite dinner-

Depression Delayed Education Years after his father's death in 1949, Mr. Humphrey would tell friends that he seldom made a major decision without thinking what his father might say.

The Humphreys were not poor hy early 20th-century Midwestern standards. But they were not rich, and the Depression struck as young Hubert enrolled at the University of Minnesota. Two years later, in 1931, he was forced to return home to help run the family drugstore, then in Huron. A year later, he went to pharmacy school in Denver, and re-ceived a degree in 1933.

In 1936, Mr. Humphrey and Muriel Buck were married, In two years, he was studying po-Minnesota, with Muriel helping support them with a \$55-a-month job as a bookkeeper for a Minneapolis investment syndicate. He got straight "A's," was elect-

ed to Phi Beta Kappa and won a BA degree in 1939, graduating cum laude. He also developed friendships in the crucible of liberalism that the university's political science department had become in the 1930s. These friends were to be the core of his advisers and supporters in the political fights ahead.

Achievements as Mayor

Mr. Humphrey spent a year earning a master's degree at Louisiana State University, and writing a thesis about the philosophy of the New Deal. He returned to the University of Minnesota and Macalester College,

Under the Capitol Rotunda, a flag-draped easket containing the remains of Sen. Humphrey lies in state.

where he taught political science through the Senate over Southintermittently for three years.

After his 1945 election as mayor of Minneapolis, Mr. Humphrey not only closed the brothels and stopped the gambling, he also used the office to solve labormanagement disputes, appoint the first municipal fair employment practices commission and expand public housing.

His first effort at national poiities came shortly after the Republicans won control of Congress in 1946. He traveled to New York City and, with a group of 19 other liberals such as Eleanor Roosevelt Herbert Lehman and Walter Reuther, founded the ADA as a liberal but militantly anti-Communist political action group. His election in 1948 to the Senate was a natural political step, and the Senate proved to be Mr. Humphrey's proper milieu. vent his enormous energy, restlessness and drive during the next

Mr. Humphrey's reelection in 1954 and the gradual recognition liberals prompted Lyndon John-son, then Senate Democratic leader, to approach him in 1955 about a working arrangement to hold the disparate parts of the party together.

The approach came after Mr. Johnson had asked Mr. Humphrey to support him for the leadership position and Mr. Humphrey had turned him down, even though both knew Mr. Johnson was going to win. Mr. Johnson told Mr. Humphrey: "You're one of the fellows not playing both sides of the street. I want to work with you."

This "working arrangement" lasted through the six years Mr. Johnson was majority leader and while he was vice-president under Mr. Kennedy. And it lasted despite the 1958 Democratic convention when Mr. Johnson helped hiock Humphrey's open hid to be Adlai Stevenson's vice-presidential candidate, and through 1960 when both Mr. Humphrey and Mr. Johnson were contesting Mr. Kennedy for the presidential nomination.

Back in the Senate, Mr. Humphrey's stature as a legislator continued to grow. In 1964, he who chose him as vice-presidential candidate in 1964. party nomination for president and vice-president. guided

ern and conservative Republican opposition and won the respect the losers within his party for his tact and humor throughout the long, hitter fight.

Mr. Humphrey took on the civil rights job at the request of Pressident Johnson and it was one the factors that led to Mr. Johnson's choice of Mr. Humphrey as his running mate in 1964 over several senators including Mr. Humphrey's longtime ally from Minnesota, Eugene Mc-Carthy,

The Johnson-Humphrey ticket rode to a landslide victory, but in many ways, it was the beginning of the end of Mr. Humphrey's presidential hopes. As he often said during his four years as vicepresident. "I have a constituency of one." He served Lyndon Johnson well and loyally-so loyally that he lost his own identity in the process.

Although he privately opposed some points of Mr. Johson's Vietnam policies, Mr. Humphrey was his most articulate spokesman for of him as the leader of Senate the increasingly unpopular war. Thus, when he became a candidate for the party's nomination for president in 1968. Vietnam was an albatross around his neck and one that he made little effort to remove.

It was not Mr. Humphrey's nature to turn on his President about Vietnam or any other issue, and he resisted the advice of some members of his staff and other Democrats to do that during the 1968 campaign.

Many believed that the split in the Democratic party over Vletnam-Sen. McCarthy, the anti-Vietnam candidate, endorsed Mr. Humphrey only a week before the election and then did so reluctantiv-cost Mr. Humphrey the election,

The party split and the violence on Chicago streets during the Democratic convention set Mr. Humphrey's campaign back severely. Polis during the early fall indicated that Mr. Nixon would swamp him, But Mr. Humphrey worked tirelessly, and with thirdparty candidate George Wallace draining conservative votes from Mr. Nixon, he closed the gap in the final weeks of the campaign, but not enough to win.

Carter Administration Is Pursuing 2-Tiered Policy Toward Eastern Europe

Waving to Democratic party delegates in Atlantic City, In August, 1968, Sen. Humphrey and Sen. Edmund Muskie

Sen. Humphrey is backed by a smiling Lyndon Johnson, clasp hands in Chicago after winning the Democratic

By Murray Seeger

BUDAPEST.—The Carter administration has now made it clear how its policy toward Eastern Europe differs from the policy followed by former Presidents Richard Nixon and Gerald Ford and Secretary of State Henry Kissinger.

While the Republican administrations tended to treat the European ailies of the Soviet Union as a bloc. President Carter end Secretary of State Cyrus Vance have adopted a more pragmatic approach of differenliating among the six nations. The clearest action in carrying

out this policy was the short, solemn ceremony in Budapest in which Mr. Vance returned to Hungary the ancient crown and other royal artifacts associated with Stephen, the first king of the Magyars, who became a Roman Catholic saint because he converted them to Christianity. The ceremony followed Mr. Carter's visit to Warsaw and came within a year after Washington gave Romania substantial aid for earthquake victims.

More Daring

There are now two distinct groups of states within the Eastern bloc. U.S. relations with Hungary, Romania and Poland developed rapidly. with East Germany, CzechoWhile all six nations still main-

tain close relations with the Soviet Union through their military Warsaw Pact and their economic association, known as Comecon, Warsaw, Budapest and Bucharest have been more daring in their national policies than Sofia, Prague and East Berlin. Washington has noted the differences and believes that the one-time monolith of Eastern Europe is slowly splintering.

Mr. Carter and Mr. Vance have also learned that Moscow is no longer able to supply the economic and financial requirements of its European allies and is slowly losing its ideological hold on them, making its military pres-

ence ever more important. The current administration is seeking to improve its relationships with the countries of Eastern Europe," Mr. Vance said in

"Each of us will have to approach this with their own national interests involved. I think that the best way to deal with these problems is to have faceto-face discussions where we can discuss the differences and the common interests, and we shall pursue these on the basis of dealing on a case-by-case basis, country-by-country, on the various issues and common concerns

which we have," he added. As an experienced U.S. diplo-

slovakia and Bulgaria are clearly mat said, Washington policy-more remote. makers have long been divided on how best to approach the East-hioc nations. Was the route through Moscow or through each capital?

> The 1968 Soviet-led invasion of Czechoslovakia, which ' spuffed out the experimental "socialism with a human face" and established Soviet President Leonid Brezhnev's doctrine of policy conformity in East Europe, squelch-ed earlier hopes of loosening ties hetween Moscow and its satel-Dealing with the smaller states

also did not fit Mr. Kissinger's concept of settling international issues through big-power negotiations. The only exceptions were Romania and Poland among the Warsaw Pact members. "Poland got special attention

because there are so many Polish-Americans and Polish-American members of Congress," a U.S. official commented. "Romania got extra consideration because it opposes the Soviet

Tinion on some foreign policy is-

sues and because the Romanians

were so nice to Nixon when he visited there [in 1969]." Hungary has not yet been able to develop a core of public support among its large national community in the United States. Unlike Romania, it follows Moscow closely on international

Still, Hungary has created a the country's 10.5 million citizens, relaxed society without overt police repression and which aldebete

The country's borders are relatively open for Hungarians who can save the money for outside travel and for visitors from the West. Emigration is not a major issue because few people want to leave and those who do have been able to. "The administration views the

actions of the Hungarian government in the field of family reunification as progressive," Mr. Vance said. "Obviously, the action taken in this area is a positive factor in the relationships between our two countries and I think helps facilitate the atmosphere in which we discuss the whole range of problems and issues that our two nations will be dealing with," Mr. Vance add-

Budapest has eliminated many of the worst aspects of the Soviet model of central planning and given individual managers and enterprises greater autonomy. The country produces the most complete, and accurate, economic statistics in Comecon.

In a relatively short period, the government of Janos Kadar has improved its relations with the Roman Catholic Church, which claims at least tacit fealty from more than 50 per cent of and with its smaller but active The remnant of the huge, pre-

war Jewish population is estimated at between 80,000 and 100,000, the largest and bestestablished Jewish community in East Europe. Of course, Humgary is still a single-party state which permits

no overt opposition to its Communist party system. The country is also host to four rarely seen, but keenly felt, divisions of Soviet troops that could easily be used to suppress any uprising comparable to the

aborted revolution of 1956. Because of this mix, the Carter administration has decided that it is now time to eliminate one or two issues which complicated relations between Washington and Budapest.

The crown, which is accepted as the most powerful symbol of Hungarian nationalism by Hungarians, fell into U.S. possession in 1944 when U.S. GIs took it from former royal guards who had taken it from Budapest in advance of the Soviet Army.

While-many Hungarian-Americans, especially the 1956 exiles who remember Mr. Kadar as the Soviet Union's agent in taking power after the Red Army repression, opposed the move Mr. Carter and Mr. Vance decided that the timing was right.

Communist state was rewarded for a policy of internal liberalism," B U.S. diplomat said.

Now, negotiations will begin in an effort to grant most-favored-nation (MPN) status to Hungary. It has already been granted to Poland and Romania, as well as Yugoslavia, the independent Communist state which has long been treated differently than the Soviet-bloc members.

U.S. officials believe that they can find a formula to give Budapest the concession without trying to change the amendments to the Trade Act which bar MFN status and credits to countries that restrict emigration.

Higher Living Standard

If the formula can be found and Hungary is given MFN, the three most orthodox bloc states and the Soviet Union will be even more clearly separated from Hungary, Poland and Romania.

All of the bloc countries, including the Soviet Union, want MFN status, more trade with the United States and additional

The six smaller Comecon members have all learned that they cannot achieve the higher level of technology and efficiency they need from the Soviet Union. All of them, with the possible exception of Romania, have achieved a higher standard of living than the Soviet Union has provided to its own citizens

For East Germany, Czechoslovakia and Bulgaria, better relations with Washington will be difficult to acquire.

The East Germans still have negotiate a settlement of claims made by Americans whose property was nationalized by the postwar government. That development is tied to the still unsettled claims of Jewish victims of Nazism who have received nothing from East Germany. Comparable cisimants on West Germany have gotten the equivalent of \$24 billion.

Czechoslovakia negotiated a property-claims agreement with Washington which the State Department and White House approved but Congress blocked in 1974. Since then, relations between Prague and Washington have been nearly in stalemate.

First Cultural Pact

While it has little tradition of relations with the United States and is considered the satellite state which has benefitted most from its Soviet ties. Bulgaria has in the last two years attempted to improve relations with Washington.

The country last year signed

its first cultural exchange agreement with Washington and has permitted some of its customs officers to receive training in finding illegal narcotics from U.S. experts.

Even here, however, the new message from Washington has been recognized "America gave Romania earth-

quake aid," a Bulgarian told a recent visitor to Sofia. "We suffered heavy damage from the same earthquake but Washingion did not offer us any money. On any measure of human rights. East Germany, Bulgaria and Czechoslovakia get low scores. Their internal and external policies are modeled on the Moscow fashion and the three countries rival each other

in attempting to prove their loyalty to the Kremlin. This limits the opportunities for the Carter-Vance policy but does not eliminate them. To their credit, the President and secretary of state have shown none of the old concept of overturning the Communist control in Eastern Europe or slicing ties

between Moscow and its allies. But they do recognize the possubilities of modest change within the six states and the diminished ability of the Soviet Union to discipline them except through

military force. 'ry Los Angeles Times,

Eurobond Dollar Market Described As Between 'Disarray, Collapse'

By Carl Gewirtz

PARIS, Jan. 15 (IHT) __ "Somewhere between disarray and collanse" is the phrase one leading market participant uses to describe the present condition of the dollar sector of the Eurobord

The fundamental problem remains the plight of the dollar and this has been compounded by the mispricing of recent is-

.Although the dollar has hovered above the lows set early this month. Washington's announce-ment that it would more actively support the currency coupled with the subsequent increase in the discount rate and short-term U.S. interest rates has failed to re-awaken confidence in the dolter as an investment currency.

The rise in interest rates creating a chasm between what investors can earn in dollar instruments compared to deotsche mark or Swiss franc placements -has not yet had the intended effect of pulling funds into the dollar market. The only effect has been to upset the dollar sector of the bond market, where prices of outstanding issues have been marked down to bring their yield in line with the new upswing in short-term rates.

Rates Sport Overall, Eurodollar rates on

one to 12-month deposits spurted by half a percentage point last week, putting them in a range of 7 5/8 to 8 per cent. At the same time, DM Eurodeposit rates eased by about 1/16 of a point to just under 3 per

cent-creating a gap of almost

percentage points, an amount

exceeded only in the crisis periods leading up to the 1971

and 1973 dollar devaluations. However, at present, the gap appears to be widening after the de facto dollar devaluation as the dollar's low was set on Jan. 4. With the U.S. intervention supporting the dollar becoming more obvious and the interest differential widening, it is reasonable to assume that funds will be drawn back into the dollar. But it is clear from the persince so for that investors are still unconvinced that the large gap in interest rates completely offsets the devaluation risk

of staying in dollar investments. The dollar's lack of attraction by itself would have been a major impediment to the smooth functioning of the dollar bond market, but combined with the mispricing on the Eurofima and European Investment Bank loans the market now appears to be in

Prices Off

Prices in the secondary market last week were off on average 1 per cent, or \$10 for each \$1,000 nominal amount, and in many cases even more than that Newme activity has come to a halt. as managers wait for the dust to settle and for a new equilibrium point regarding conpons to be established.

The \$40-million, 10-year, 8 1/2per-cent issue for Eurofima, priced at par, opened trading at 97-98 and managers were shortly after forced to lower the quote to 96 3/4-97 3/4. Away from the lead manager, Smith Barney, the

U.S. Commodities

CHICAGO, Jan. 15 (AP-DJ) .- Grain futures drifted aimlessly within ranges of a few cents last week, but rumors that China may have bought U.S. soybean oil resulted in sharp gains for those contracts. Heavy buying of soybean oil futures by commission houses, exporters and professional speculators highlighted otherwise dull trading at the Chicago Board of Trade.

Lending some credence to the unconfirmed Chinese business were trade reports that China was experiencing difficulty meeting commitments to sell soybeans to Japan.

Analysis also said other foreign countries were importing good amounts of U.S. soybean oil. At the same time, a government report showed edible oil stocks at lower levels than traders generally believed. - An industry group noted that 13 per cent more soybeans were crushed into soybean oil and soybean meal during the last quarter of 1977, indicating increased demand for soybean products. As a ost soybean oil contracts rose during the week. The largest

gain of 117 points boosted January deliveries to 21.21 cents. The enthusiastic buying of soybean oil spilled over at times into allied pits. And frigid, snowy weather that gripped the nation's midsection produced some demand for feed grains because livestock are

fed more for protection from the cold. But by comparison, other grain futures posted minor changes for the week in listless trading. Soybeans were unchanged to 6 3/4 cents higher, with January contracts at \$5.93 1/4; corn advanced 1 1/4 to 2 cents to finish at \$2.23 3/4 in March contracts; wheat deliveries dipped 1/2 cent in March contracts to \$2.76 3/4 a bushel; soybean meal finished 90 cents lower to \$1.40 a ton higher, ending at \$161.80 in January contracts; oats advanced 2 1/4 to 4 3/4 cents, to \$1.32 1/4 a bushel in March deliveries; hog futures were barely steady to weak on the Chicago Mercantile Exchange, losing more than a dollar per hundredweight in midyear contracts, and the current live cattle contract gained 20 cents, but others were as much as 60 cents lower.

paper was quoted at 96 1/2-

The European Investment Bank gave what most dealers called a asmetic discount of 99 1/2 on both tranches of its \$200-million loan divided equally between 10year, 8 1/2-per-cent and 15-year, 8 3/4-per-cent issues.

Allotments went out Thursday night, but lead manager Union Bank of Switzerland said it would only start trading tomorrow and as a result no quotes were available Priday as all other marketmakers were waiting to see where UBS would begin trading. The expectation is that the discount will be as big as that of Euro-

Although both issues were badly received, neither lead manager coted to call on the underwriting syndicate to take up the bonds. However, Smith Barney was reliably reported to have called upon various "friends" to help out by taking their full underwriting

Questions Raised

UBS maintains that underwriters who had no subscription were not asked to take down the amount of their commitment because the loan was adequately covered.

The performance of these issues raises some questions for (Continued on Page 13, Col. 1)

The U.S. Economic Scene

Ominous New Clouds Gather in Economic Skies

By Thomas E. Mullanev NEW YORK, Jan. 15 (NYT) .-Ominous new clouds gathered in economic skies last week, ning the business climate and increasing fears in Wall Street and other quarters that the United States might be en route to another recession—toward the end of this year or early next year -unless policy changes prevent

the derailment. There is, however, no unanimity on that score in business and nomic circles. Most analysts, in fact, are clinging to the belief that a year of moderate economic growth, with some further decline in unemployment, is still the most likely scenario for this year. The naus is that some of the recent adverse data are being misinterpreted, and that the economic atmosphere in this country is actually improving, rather than

deteriorating. A recent commentary by a Wall Street investment firm seemed to capture the prevailing mood of private economists. "Much like 1977," the firm said, "1978 has begun on a note of cautious optimism, but this year the accent seems to be more on caution than on optimism. We see the current positive United States economic momentum persisting through the first, and probably the second quarter of the year, and are inclined to approach the latter portion of 1978 with more than a

measure of caution." The views of the more pessimistic analysts on the outlook were crystalized in this comment Albert Cox jr., president of Merrill Lynch Economics:

"I'm looking for a sharp slowdown in growth this year, with real output slipping from a gain of 4 per cent in the current quarmonths of this year, and zero in the first quarter of 1979."

3 Developments

He said his view was not based on the surprisingly weak retail sales report for December, which disturbed and baffled so many

other recent developments: the mixed trend of consumer and business confidence in various surveys, the upturn in interest rates, and the continuing slump of the stock market.

In addition to those unfavorable

New York Stock Market

NEW YORK, Jan. 15 (NYT).-The woes of the U.S. dollar hung last week like an albatross around the neck of the securities markets. The intermittent—and feeble—rallies typically came after some brief show of strength by the dollar in world currency markets.

Followers of the Dow Jones industrial average watched it continue to sink. This key stock barometer finished at 775.73, a loss of 17.76 points. It had dropped 37.63 the week before, and the dollar was the main depressant then, too.

On Friday, another factor weighing upon the market was the huge increase—more than \$4 billion—in the nation's basic money supply. This was announced late Thursday for the latest reporting week. Last week's Big Board volume totaled 116.8 million shares, compared with 91.5 million in the preceding, holiday-shortened week.

The New Year's hangover extended through the first seven trading ons in the stock and bond markets. Prices fell so continuously that the action confounded even the bears, some of whom had expressed mild optimism for early 1978.

Finally, on Thursday, a rally appeared in the equity and fixedincome sectors, but it seemed more a token than a trend. In the year's first seven sessions the Dow Jones industrial average plummeted more than 55 points to its lowest level since early April, 1975, or 33 months ago.

John A. Mendelson, a technical analyst for the investment firm White. Weld & Co., called the market turn correctly in 1977. "Since March 1976 we've been in a long correction that has not ended," he declares. "But this has occurred within the framework of a longterm bull market that began in late 1974. Every intermediate market decline, such as the current one, ends in a period of anxiety as expressed by selling pressure—and not merely talk. The past week or

so has witnessed the beginning of this selling pressure."

Mr. Mendelson offers some sobering thoughts to owners of small, secondary issues on the New York Stock Exchange and the American Stock Exchange that outperformed the market in 1977. He looks for these issues to take their humps in the first half of 1978, so that "the market can even itself oot" and prepare for an eventual advance.

ground news contained reports of a disappointing level of business expectations for capital spending this year, the continued troubles of the dollar io the foreign-exchange markets, the lingering heavy deficits in the United States' trade and payments accounts, and the economic tension with Japan, with its protectionist

overtones. Through all the gloom, President Carter and his top economic aides have been expressing confidence about the economy and the dollar, evidently counting heavily on the economy's present momentum, initiatives to support the dollar, and the upcoming messages on the budget, taxes and an anti-inflation program to avert the more serious economic prob-

Although the President and his aides have conceded the potential impediments to further economic growth posed by the rise of interest rates and the energy situation, the official view in Washington is that the economy remains strong and will make further gains this year.

"We are not dealing with a tottering economy," the President said at his news conference Thursday. But he made it clear that the adoption of a big tax-reduction plan oo the order of \$25 bilwas essential to keep the lion economy on an expanding path later this year.

4 Messages The administration's plans for this year will be spelled out in messages starting late this week. A high-level Treasury official said last week he hopes the public will view those messages as "an integrated, consistent and (Continued on Page 13, Col. 7)

TrustCor International **Bond Fund**

An important new income investment vehicle that allows diversification into a bond portfolio while maintaining liquidity.

The TrustCor International Bond Fund is a significant additional product to the TrustCor International Equity Fund.

The Fund is designed to provide investors with a professionally managed portfolio consisting principally of fixed income securities selected to maximize current income consistent with preservation of capital. Emphasis will be placed in the Eurobond market with the minimum quality standard being a rating of

It is also the Fund's intention to use more than one currency in the portfolio, with Deutschemark and Yen denominated issues being significant.

Units of participation in the Fund are offered at net asset value. The minimum subscription is \$5,000 with units having an initial value of \$100 denominated in United States currency. There is an acquisition charge of \$2.50 per unit.

Income will be distributed twice yearly. Additional information about the TrustCor International

Bond Fund is available from the management company. For a copy of the Fund prospectus write:

TrustCor Management Company S.A.

P.O. Box N-7788 Nassau. Bahamas.

An investment product of the RoyWest Group of Trust Companies.

reasonable discount.

Bankers justify the discrimingtion in favor of institutional olients by pointing to developments in New York, where in the new era of freely negotiated stock brokerage commissions, the costs to small investors have been increasing while those to institutions have been declining. What these bankers apparently fail to appreciate is that the U.S. brokers are inexorably driving small investors out of the stock market altogether.

"Real placing power in the Eurobond market was historically almost exclusively retail," an executive at a leading Swiss bank commented. But this is no longer the case, he maintains.

"The institutional base is veloping," he says. 'They are the new buyers of Eurobonds. They are relatively few in num-ber and the competition for their attention is enormous. As a result, they are very demanding about getting new issues less the full selling concession.

Meanwhile, this banker adds, underwriters with little retail demand who want to be seen as "capable" of taking positions in new issues will pass the entire selling concession to the institutions in the hope of winning their business and thus be able to unload the bonds the bank had to take as part of its underwriting commitment. And, as there is other business an institutional client can throw to a bank, all banks are scurrying to do

business with these giants. From this point of view, the "real" discount on the Eurofima paper, priced at 100 and trading at 97, is only 1 1/2 points Overlooked is the fact that the retail investor is sitting with a loss of 8 points, equal to \$30. Another question is raised in

Company Accused of Nondisclosure

FTC Says Ford Sold Faulty Engines

WASHINGTON, Jan. 15 (NYT). -The Federal Trade Commission, in its first major automobile-defect case, has accused the Ford Motor Co. of selling automobiles with faulty engines without disclosing the problem to its custom-

The company, the second largest U.S. car manufacturer, was also cited Friday for falling to disclose to customers their right to have the engines repaired at company

The alleged defect, piston scuffing, is attributed to an inadequate lubrication system used to save production costs, according to the staff of the commission. Ford said that the FTC action regrettable because the company is already working to satisfy complaints. Ford added that had adequately notified the public by issuing press releases.

In the past, most federal ac- das, Monarchs, Mavericks and tions-that often led to anto recalls-have been brought by the National Highway Traffic Safety Administration. But it has authority over only safety-related defects.

The commission, which acts on general consumer complaints, has wider authority and could become a powerful advocate in auto "Automobile defects and repairs

are a major concern of consumers and generate one of the largest sources of complaints received by the commission," eaid Tracy Westen, deputy director of the commission's Bureau of Consumer Protection

Involved in the complaint are four and six-cylinder engines that were installed in 1974-77 Pintos and Mustangs, 1975-77 Bobcats, 1976-77 Capris and 1975-77 Grans-

Comets, the commission said. The commission staff was unsure how many of the eogines are faulty but reported that 55,000 of the 2.7 million engines produced may be involved.

which allows metal-to-metal abrasion between the pistons and the cylinder walls. The company has said that the scuffing can be detected by an audible clicking sound, particularly when the engine is cold.

The commission reported Friday that piston scriffing may cause "substantial damage to the engine and can require expensive engine repairs."

But the charges were dropped

Neither Mr. Rosen nor Pre-

ferred Equities president Jack

Soules responded to telephone

calls from The Washington Post,

but Mr. Soules recently told an

interviewer for the local Valley

Times that neither of them had

Mr. Soules said that Mr. Beck-

mann was using his complaint to

"blackmail" the firm into re-

funding his investment. He said

that Parfund was a legitimate

investment fund for land devel-

coment, and that the West Ger-

man government had halted the

company's activities in Germany

because of scandals uncovered in

other international investment

funds that were not related to

Protest Through Diplomats

W. Germans Claim Nevada Land Swindle

(Continued from Page 1)

portedly very sluggish. In the deutsche-mark sector, prices suffered a setback at midweek but most of this was recouped by Friday although the After many Germans attempted recent new issues are all trad-

ing at discounts. On the new-issue calendar, Denmark is raising 100 million DM in six-year, 5 1/4-per-cent notes and 100 million DM in 10year, 6-per-cent bonds, Brazil offering 150 million DM of eight-year paper carrying a cou-pon of 8 3/4 per cent.

In the domestic market, the World Bank is raising 500 million DM in 12-year bonds with a compon of 5 3/4 per cent, The bonds, which have an average life of 10.5 years, are expected to be priced at 99.

Late this week, New Zealand is expected to come on offer with an issue of 200 million DM. In the secondary market, Banque Française du Commerce Extérieur, whose 150-million-DM, 10-year, 5 3/4-per-cent loan we priced at 99 3/4, was quoted at 98 1/4. Norway's 200-million-DAT. five-year, 4 3/4-per-cent loancarrying the lowest coupon yet

priced at par and traded at Porsmarks and Finland, both carrying coupons of 5 8/4 per cent and priced at 99 1/2 and 100, respectively, were quoted

seen in the DM market—was

down 1 1/2 points. In the Unit of Account mar-ket, Kommonalaneintitutet, a Swedish municipal financing company, is raising 12 million UA in a 15-year loan carrying a coupon of 8 per cent. However, the coupon is likely to be cut to 7 3/4 per cent in light of the very heavy demand.

Panama Loan Panama has completed a 10-year loan of 5 million Kuwaiti dinars carrying a coupon of 9 per cent and priced at par. Investors have the option of redeeming after the first five years.

Given the strong performance of sterling on the foreign ex-change market and the stabilization of prices of the recent Eurosterling issues still at big discounts—bankers expect a new attempt to be made shortly to re-open this part of the mar-

Parfund would be investing in Calvada land. According to Mr. kmann, Mr. Rosen indicated to the Germans that his son, Ronnie, was head of Preferred Properties, a firm involved in the rada land venture.

Mr. Beckmann's statements are part of a large package he sent to Nevada's Consumer Affairs Division offices to protest what eventually happened to his invest-

to contact Mr. Rosen, he came back to the investors in June, 1971, with a proposal. Ha offered them \$11 worth of Calvada land for every \$10 of Parfund shares. Mr. Beckmann said he took tha deal "to save my investment" and exchanged \$25,000 in Parfund shares for five lots in Calvada. He received the deeds between July, 1971, and October, 1974. Meanwhile, IMCIA also default-

ed on interest payments from the debentures. By early 1972, Mr. Beckmann said, he realized that the \$4,000 investment was lost. But as a result of the Parfund transactions, Mr. Beckmann began receiving tax bills from the tax assessor in Nye County, Nev., who valoed his land at \$15,000 price West German author-

ities said was inflated. They contend that Mr. Rosen. using a series of dummy domestic and off-shore corporations that he controlled, sold the land to himself before trading it to them, boosting the sale price and consequently placing an inflated value on the land.

Whether or not those dummy transactions took place, it appears that the assessed value of the retail price of the land set by Preferred Equities when it sold the land to Parfund. Preferred Equities was founded by Mr. Rosen, and Parfund was run by him, according to federal in-

Heinz Pallasch, a West Ger-man deputy coosul in San Fran-cisco, said the high taxes charged the Germans were unfair because Preferred Equities was paying much less on the same amount of property it still owned in the development. Mr. Pallasch went to

County to try to persuade tax authorities there that many of the Germans had invested all of their savings in Parfund, and now the land in Calvada, and they could not afford the tax payments.

Economic Scene-

articulated program" for dealing with the nation's major economic problems, and not see them as "an effort to shoot a shoteun at everything that's moving around."

He added: "The administration is trying to use all resources to get a decent rate of economic growth viz the tax route rather than through soaring expenditures. Increased spending is not the route we intend to take."

If that is the course that is followed, it would ease the concern of private economists who fear the inistration might push fiscal and monetary stimulus excessively to achieve its growth and unemployment goals and thus increase the risk of a larger federal deficit and higher inflation

Despite the rash of adverse economic news last week, there were some encouraging developments as well. The decline in the unemployment rate to 6.4 per cent in December from the downwardrevised 6.7 per cent of November. at the same time that total employment was rising by more than 400,000 persons, was the most significant development. Also important was the slight easing in the wholesale price index, and the further expansion of consumer legedly engaging in the use of "false, misleading and deceptive"

Even the decline in December retail sales was not considered as bearish omen by most analysts. It did come as a distinct surprise in view of the glowing sales rerts on Christmas business by the nation's chain and department stores. The general tendency in private and government circles was to discount the initial report of a 0.7-per-cent decline from November's volume as a preliminary figure that would subsequently be revised upward.

"The drop in retail sales for December," said Leif Olsen, chief economist of Citibank, "might have been anticipated in view of the unusually strong sales gains that occurred in October and November. Real final demand for the fourth quarter was very good. The economy is continuing to

grow, possibly even faster than most of us thought, Credit demands are also continuing to rise. We see no possibility of a recession—at least until 1980—unless monetary policy changes significantly, Less expansive monetary policy would slow real growth, Monetary policy, therefore, will have to be pursued very carefully, and there is no explicit sign that a policy of restraint is being ap-

Pierre Rinfret, a New York economist, also said the latest retail sales report was surprising. He, too, believes the data "will eventually be revised upward, since all the feedback we get from the retail sector shows the trend running the other way.

Like most other analysis, he is confident the economic expansion, which is now in its 33d mouth, will continue with the help of tax ou According to that article, the brothers amassed \$128 million reduction, he said, has resulted in economic expansion, and this one will tend to accelerate capital

spending, which he thinks is already rising strongly, despite the government's report last week that a gain of only 4.5 per cent in real terms looms for this year.

A government official also discounted that projection, saying the survey was taken before businessmen knew what would happen on energy and taxes.

The basic data on the economy currently does not worry most private analysts, but the outlook for interest rates, the recent course of the stock market and the plight of the dollar do.

If interest rates move too high too fast, the domestic economy's advance could be slowed appreciably. If the stock market's big decline persists, it will have a serious psychological impact as well as enlarging the estimated loss of some \$100 billion in potential purchasing power sustained over the last 12 1/2 months. If the dollar's value crodes further, it could have serious inflationary consequences for the domest economy, as well as delaying the recovery of other nations.

The tenor of recent commentary on the dollar's plight was remindful of the sober assessment made almost 10 years ago by the monthly publication of the Chase Manhattan Bank after a serious run on the dollar abroad at that time. That earlier crists was somewhat worse because, on March 15, 1967, many American tourists faced the experience of having foreigners refuse to change their previously mighty dollars into local currencies

Then, as most recently, currency speculators were active in the markets and were blamed by many for the dollar's ills. although most analysis saw more basic influences at work each

In its comment on the dollar's troubles in 1968, the New York bank noted: "It was not the speculators who caused it. Their behavior is only the inevitable symptom of the basic malady."

Chase attributed the attack on the dollar a decade ago to "the seemingly endless series of deficits" in the United States balance of payments, with low priority accorded to correcting it; major spending programs at home and abroad, without making provision to pay for them, and a rising rate of domestic inflation.

In the current era, analysts note that there are trade and current-account deficits of huge magnitude that do not seem to be ubsiding; a rising deficit in the federal budget; an increasing rate of inflation that is not being addressed effectively, and the almost overwhelming problem of high-cost energy imports that are not being offset by any significant new national policy.

EDISON: THE MAN WHO MADE THE FUTURN

By Ronald Clark. Putnam's Illustrated. 256 pp. \$12.95

Reviewed by Robert Kirsch

P Thomas Aiva Edison had not existed, it would have been necessary to invent him. In fact, in a certain way, as we see from this excellent biography, Edison did create the type for which he became a model, half-inventor, half-scientist, the technician-entrepreneur, so much a hero of the America that loved machinery, technology and gim-micks. When he died on Oct. 18, 1931, virtually all the lights went out in a brief memorial, the streetcars and elevated trains stopped, and even the torch on the Statue of Liberty was extinguished.

This was a voluntary tribute to the man who electrified America, changed its way of life. For that minute, America seemed to be back in the age of kerosene and gas lamps, says biographer Ronald Clark. Edison became a myth. Indeed, though he did not invent legends, he rarely stood in the way of their development. He did not discourage publicity, was generous with interviews. did not hesitate to embroider anecdotes and claims for an enthusiastic audience. But he also had a way of living up to his

Edison was called a wizard, a magician, but the facts of his accomplishments, of his independent and skeptical mind, need no occult explanation. He "help-ed give both the United States and Europe the technological sinews of the contemporary world: electrical industries, the viable telephone network, the phonograph and the movies." On the average in his working life. he filed a patent every two weeks.

The legend has him, like Matthew Arnold's Shakespeare, "self-school'd, self-scann'd, selfhonourd, self-secure." There is a measure of truth in this. His family was not so poor as legend has made it; his boyhood not nearty as mischievous and troublesome as some, needing buttress for the legend, have

He had an endless supply of

curiosity, energy and no a amount of impertinence

Throughout his life he was more dedicated and tireless er than has been realized. He n Newton, validated the ments described in "Natural and Experimental losophy." He proved his box acumen by running fruit local produce from Port to Detroit, while selling pe and candy to passengers and road stations in between. An accident in which a ductor pulled him outo a de

ing train by the ears the h been delayed selling papersi's duced the deafness that wit plague him all his life. His ability, characteristically, to an advantage turned laimed the desiness helped as a roving telegraphist ("Wi could bear unerringly the ticking of the instrument, I co not bear other and perhan tracting sound.") Other t tions were encouraged by deafness. His trouble in h over Bell's telephone conv him to improve its sound by carbon transmitter, an essent of the instrument even today

"Deafness, pure and sin was responsible for the ex mentation which perfected [gramophone] machine," he But there were other traits a tomatic of the age and many particularly of his personal This book is full of examinations. which show him turning ch to his own benefit, a refuse be deterred, "and a relent ness some would say a ruthly ness in exacting as much p ment for a job as the to would bear."

His first invention was a counting and recording apparator legislatures. It failed but invention bug had bitten him He took time out to me twice but his major energies we to inventing. Edison, of co is known for the familiar on But many others came out his fertile mind and toward end of his life he was ready try to invent a delicate electricate receiver which might test possibility of messages from

afterlife. Even more shocking to his temporaries than his interest spiritualism was his mandoubt of organized religion the existence of God-altho when his associates and his and wife suggested such vi might be bad for business, forebore to express them

Robert Kirsch is a book viewer for the Los Angeles Ti

CHESS

The stonewall variation of the Dutch Defense has always been considered suspect because it sbandons control of the important black squares in the center. Only Mikhail Botvinnik of the Soviet Union, a former world champion, got long use out of it (from the late 1920s to the early 1950s), adapting himself to its difficulties with an uncanny vir-

Yet it is an aggressive, asymmetrical defense, that rules out simplification at an early stage. the condition of the co

the 11th and 12th games but still trailed by three points. By winning this game and the 14th, a Vienna Game, he cut his deficit

to one point.

Botvinuk, in the 16th game of his 1951 championship match with David Bronstein, preferred 8...
B-Q3 and 8... Q-K2, but Spassky's 8... B-Q2, 9... B-K1, 10...
B-E2 and 11... QN-Q2 gave Black a better chance for a harmonious development,
With 12...R-BI, Spassky drove
for 13...P-B4 but was thwarted
by Korchnot's constricting 13

Dering broke through the thin lint to recklessness with Spassky's 14. P.KN4? which permitted Korchnoi to open a file against the black king with 16 P-KR4. P-KR3. 17 RPxP, RPxP. Later, after 19 P-B3. Spassky could not play 19... NxN: 20 PxN, N-Q2 because of 21 N-Q4, but perhaps he could have interpolated 19... Q-K1, with the same idea in mind.

It was dangerous to open the long diagonal of the white QB by 19... PrP; 20 QPrP, NxN; 21 BIN, N-Q2; 22 B-N2, unless Spassky were willing to proceed with 22...P-K4; 23 P-B4, B-B3 with a shalty position.

After 27 ... joyed a great

DENNIS THE MENACE

AP).-Klaus Heidegger won the last World Cup race. World Cup alalom here today, reaking Ingemar Stenmark's nonopoly on the event this sea-

With an all-out second run, -Indegger recorded a combined time of 1 minute 30.79 seconds 30 shead of Peter Popangelov ind 131 ahead of Stenmark, who inished fifth, his poorest perormance since 1975.

Stenmark, who won-all six previous sistom and giant sistom aces this season, remained irtually certain of capturing the werall World Cup championship or the third straight year. "You ust can't win all the time," he

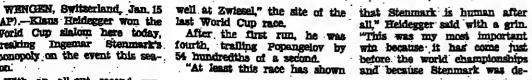

aid after the race. Stenmark leads the standings with 150 points, which can be qualed but not beaten by another kier. Under this year's rules, est results in each of the three lisciplines slalom, giant slalom nd downhill.

The surprise of the race was : he finish of Popangelov, an 18ear-old Bulgarian, who won the suropean Cup, the World Cup's unior competition, last year. He sosted the fastest time in the irst run.

Good Italian Showing Mauro Bernardi, who finished hird, led an Italian showing of ive places among the first ten. Only 18 of the 86 starters finshed the two runs through 60 rates over a drop of 155 meters. among those eliminated by falls or missed gates was the entire J.S. team, led by Phil Mahre, who clocked the third best inermediate time in the first run. "I had to take all the risks n that second run," Heldegger aid after the race. "I just deided to forget that I didn't do

After the first run, he was fourth, trailing Popangelov by 54 hundredths of a second.

Flu Troubling Three on Cowboys

By Dave Brady

- NEW ORLEANS, Jan. 15 (WP). -The Denver Broncos, who lost 1 staggering 147 games in 17 revious seasons, seek redempion today.

The American Conference hampion Broncos play the Dalas Cowboys, champs of the Natonal Conference, in the Super-Bowl before a capacity crowd of 74,904 in the enclosed Louidana Superdome. Dedias is fa-fored by 5 1/2 points.

The kickoff is scheduled at p.m. (EST) to attract a primeime television audience, the Naional Football League commisioner. Pete Rozelle, has explaind. About 150 million people are xpected to watch the telecast. ppear in the IHT dated Mon-

Each member of the winning eam will earn \$18,000 for the mme, while each member of the osing team gets \$9,000.

Flu Going Around

Both teams are relatively a nealthy for the game except for eserve tackle John Grant of the Broncos early in the week and .nit safety Charlie Waters and ackles Ralph Neely and Pat

Donovan of the Cowboys later. The only seriously injured Jay Saldi of Dallas, who sufered a bruised left calf during the Cowboys' victory over Minnesota. He was listed as quesdonable all last week and on Friday his status was changed

That means there is a 75-persent chance that Saldi will not play. Coach Tom Landry said Donovan, Dailas's starting right tackle, would be the backup

tight end. Identical Records

The game pits the poise of the organization types, the Cowboys, against the emotion of Denver, the new face in the playoffs. The Broncos won 12 of their 14 regular-season games, then beat Pitts-burgh and Oakland in the playoffs. Dallas also was 12-2 before easily beating Chicago and Minnesota in the playoffs. This is the 12th Super Bowl.

nine. It is easier to remember that Green Bay won the first two and the Cowhoys the sixth. A major point of interest will be whether running back Tony Dorsett of the Cowboys can inject excitement by outlienking the No. 1 rushing defense in the

Comparative Stats

The Cowboys are favored because they have not only the No. 1 overall detense in the league but also the No. 1 offense. The Broncos were 12th in total offense and last in passing in the AFC, and 13th in defence against the

Kuhn Blocks All-Star Team's Visit to Cuba

By Murray Chass

NEW YORK Jan 15 (NYT).-Baseball commissioner Bowle Kuhn has notified Cuban sports officials that he will not allow a team of major leaguers to play in Cuba in March. A source familiar with the

negotiations for a game in Cuba said a cable was sent late last week to the Cuban officials informing them of Kuhn's decision. Negotiations for a game or games between major league all-

stars and the Cuban national team had been conducted off and on since last spring, when Kuhn refused to allow the New York Yankees to go to Cuba for a seties of games. The latest meeting was held

three weeks ago in Mexico City. It was believed then that only details on the mechanics of a major league all-star team's visit late in March remained to be worked

Problem of Playing However, the source said, "a number of things had to be resolved and it wasn't going right, so they called it off." The major problem, the source added, was the Cubens' "non-answer to the possibility of Cubans playing in organized baseball in the United States in the future."

The most recent negotiations apparently centered on a game that would have been played perhaps the last Monday in March in prime television time so it could have been shown in the United States. At least one television network was said to be interested in carrying the game.

The game would have had historic and diplomatic value. From a historic standpoint, it would have been the first time a team

French Group to Fight Tour by Springboks

NICE, Jan. 15 (UPI).—A French anti-apartheid movement announced plans yesterday to seek to cancel a scheduled rugby tour of France by the South African Springboks.

Albert Levy, general-secretary of the movement against Racism, anti-Semitism and for Peace, said that his organization intends to lobby Sports Minister Alain Dijoud to cancel the tour, schedul-ed for the end of the year.

from the United States played in Cube since the two countries broke off relations in 1961. Diplomatically, a game might have served as a significant step in the restoration of relations. Fidel Castro, the Cuban Pre mier is a baseball enthusiast-he has been both a player and a fan —and he said publicly last winter he would like to have the Yankees

play in Cuba. No Foot in Door

However, Kuhn vetoed the trip, saying it was his policy that only a major league all-star team could play in Cuba. He did not want any one team getting a jump on Cuban baseball talent if Castro ever allowed the amateur Cuban players to play professionally in the United States.

Now Kuhn has vetoed a trip by an ell-star team, at least partly because Cuba would not assure him that its players could be drafted by major league teams. When the Yankes trip was being discussed last March, Jorge Bango, Cuba's leading sports official was asked if Cubans ever would be allowed to play in the major leagues. "I don't know," he said. "I doubt it very much. They

are amateur players."

logical barrier." Snow conditions were good in above-freezing temperatures and under overcast sides.

Downhill Delayed Again

Strong winds yesterday forced the cancellation of downhill practice and a second rescheduling of the World Cup downhill race here. Organizers said the downhill was now scheduled for to-

Franz Klammer registered the two festest times today in practice for the downhill.

Klammer was clocked in 2:08.45 for the first rum and in 2.11.06 for the second. Steve Podgorsky posted the second and third best times with 2:09.05 and 2:11.45 Read, was only five hundredths of a second behind Klammer in

4 Countries Plan Ski TV Blackout

From Wire Dispatche BERN, Jan. 15 .- Four European countries have agreed to boycott television transmission of two World Cup skiing meets being held in Austria later this month, the Swiss Broadcasting Corporation said.

The four are Switzerland, West Germany, France and Derimark. They are concerned about commercial advertising along the ski

The ban follows the alleged violations by Austria of an advertising agreement reached last year between the International Ski Federation (FIS) and the European Broadcasting Union, limiting the content and precise location of advertising at FISorganized events...

The two events are the women's downhill and alalom meet Wednesday and Thursday at Badgastein and the men's downhill, sislom and giant sislom at Kitsbuhel from Jan. 20 to 22.

Soccer Referee Stoned, DAR-ES-SALAAM, Jan. 15 (Reuters).-A soccer match was postponed after the referee was arrested on the field and accused of smoking marijuana just be-fore kickoff, the official Tanzanian Daily News reported.

Spectotors at the game in Dar-es-Salaam had their money refunded. The referes will appear in court charged with possessing an illegal drug.

Andretti First, Lauda Second In Grand Prix of Argentina "I finally got the bloody brake

BUENOS AIRES, Jan. 15 (UPD). -Mario Andretti, starting his balance worked out, but by that Lotus from the pole position, led time I only had 10 minutes left a'l the way today towin the Argentine Grand Priz, the first ruce lem was just getting to know the of the 1978 Formula One season. machine." Niki Lauda, the world champion, finished second in a Brab-ham BT-45C, followed by Patrick Depailler in an Elf-Tyrrell.

James Bunt finished fourth in a McLaren M-26, Ronnie Peterson was fifth in a Lotus MK-3 identical to Andretti's and Patrick Tambay was sixth in another Mc-Laren M-26. Andretti. 37. recorded his

seventh Grand Prix victory on a blazing hot day here. "Fantastic, just fantastic," Andretti said as he jumped from

his car after the ceremonial victory lan. "I thought I was piloting an

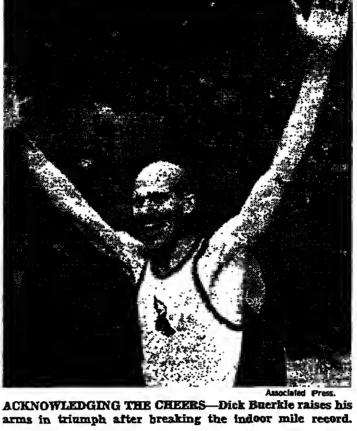

airplane, my Lotus went so fast I thought that the heat might give me problems but the motor and tires never experienced problems during the whole race." Colin Chapman, head of the Lotus team, jumped into the air, did a dance and hurled his cap onto the track as Andretti flashed by the checkered flag.

"The dur was just marvelous, just marvelous," he said. Landa's debut with the Brabham team of Bernie Ecclestone was a creditable second place while the Ferrari team he deserted near the end of last zesson finished out of the money.

Andretti smashed the track record yesterday to win the pole position.

He registered a time of 1:47.75 around the 5,968-meter circuit, with an average speed of 199,402 kilometers during the final time trials, Andretti knocked ninehundredths off the track record of 1:47.84 set by Carlos Reutemann in Thursday's time trials. . Divina Galles, the only woman driver, finished last among the 27 drivers with a time of 1:56.89 in her Hesketh 308-E and failed to

qualify. Galica, one of the three drivers eliminated, blamed brake balance for her performance.

Soccer Draw Favors West Germany, Brazil

EUENOS AIRES, Jan. 15 (UPI).—The draw for the 1978 World Cup soccer finals yesterday resulted in groupings that seemed to favor West Germany, the defending champion, and Brazil. The draw resulted in the following groupings:

Bookies Like

High-Jump Mark Set

U.S. Runner Breaks **Indoor Mile Record**

By Neil Amdur

COLLEGE PARK, Md., Jan. 15 (NYT).-Who said U.S. milers can't win as front-runners? Dick Buerkle outran Filbert Bayi from start to finish and set a world indoor record in the mile here Friday night with a time of 3 minutes 54.8 seconds during the National Invitation indoor

The 30-year-old Buerkle, who later said, "I was trying to break the record but I didn't think I could do it." crossed the finish line in Cole Fieldhouse 20 yards ahead of Bayl, the Tanzanian world outdoor record-holder at 1,500 meters. He finished second in 3:58.4

Buerkle's time broke the indoor mile mark of 3:55 that was set by Tony Waldrop four years ago. Buerkle (pronounced Berkley) gradually pulled away from his rival in the final two laps of the 11-lap race

American Record

Buerkle's performance highlighted a series of impressive season-opening efforts that included a U.S. indoor record by Mark Belger of Villanova in the 880-yard run and 2.7-foot 6-inch high jump by Franklin Jacobs, the -foot-8-inch Fairleigh Dickinson

University flopper. But Jacobs was not alone, Greg Joy of Canada, the silver medalist at the 1976 Olympics, cleared 7 feet 7 inches for a world indoor mark. Only two other competitors have ever jumped higher, indoors or outdoors

The 21-year-old Belger passed Mark Enyeart with two laps left in the 880 and won convincingly in 1:48.1, the second-fastest indoor half-mile ever. "I only had to run twice in the

race," the ebullient Belger said after improving on his 1:48.7 time for 800 meters two weeks ago in Long Beach, Calif., "to get to the turn at the start and then to pass Mark. The rest of the time I was

Buerkle, who competes for the the New York Athletic Club, was not cruising, although he almost did not make the meet, He arrived on the University of Maryland campus without any competitors ticket, stayed at the wrong hotel and lacked transportation to the fieldhouse. He also was uncertain

But the 5-foot-7-lnch, 130-pound Buerkle has been training since last September with a coach, Bob Ivory, who has been

trying to persuade him that races

can be run and woo from the

front. "He sald if you want to do it. you have to run it fast," said Buerkle, a former U.S. Olympian who gained his reputation in recent years as a 5,000-meter

Behind Expectations

Buerkle ran the first 440 yards in 57.3 seconds, with Bayi a step behind in the flyeman field. Buerkle passed the half-mile mark in 1:58.9, somewhat slower than he had expected.

"I was trying to press myself," Buerkle said. "I wanted to do

Buerkle's pace did not shake Bayi, who has been accustomed setting the pace for the rest of the world, particularly Americans, in recent years. At the half-mile, Bayi was only two

yards behind in 1.59.2. Buerkle passed the three-quar-ter-mile mark in 2:58.3, still a slim two yards ahead of the lean, lithe Bayi, who was content to sit in

"After I heard lhe three-quarter time, I didn't think I could do it." Buerkle said.

With two lans left, the crowd 8,897 expected Bayi to make his move, Instead, Buerkle opened a four-yard lead, then a 10yard lead and then 15 starting the gun lap. Yet Buerkle did not realize he had broken the world record until he was informed by an official after the race.

The world outdoor record in the mile of 3 minutes 49.4 seconds is held by John Walker of New Zealand. Indoor mile times generally are slower because the races are run on smaller tracks.

Joy Injured

RICHMOND, Jan. 15 (Reuters). -Joy, who set a world record indoor mark for the high jump on Friday night, injured an ankle during a track and field meet here last night.

Although the injury was not considered to be serious, Joy withdrew from competition. He had been trying to clear 7 feet 1

The Man Behind the Record

(NYT).—It had been a tiring mature breed of U.S. runners no three-hour trip for Dick Buerkle longer content with headlines or from Meadville. Pa., to his home handouts from meet promotors. from Meadville Pa., to his home in Buffalo, N.Y., last Thursday. Snow, icy roads, the loneliness of the long-distance driver.

And there was the thought of one last workout, the tightener that Buerkle wanted before running the mile at the National Innot ranked among the world's vitation track meet. But where could be find a stretch of dry read to run two consecutive 56-second quarter-miles?

Buerkle turned on the citizens band radio in his car and asked about area road conditions. Sure, someone said, the streets are dry

m Kenmore. Found the Right Spot

"I went over to Kenmore," Buerkle recalled yesterday. "Of course, the roads were ice-covered. I drove around for another 20 minutes and finally found a spot. I had to get those quarters in." Such is the price amateur athletes in the United States pay

a 56-second final quarter-mile that carried the 30-year-old Bucrkle to a world indoor record in the mile. Buerkle has a short, efficient stride that often makes him look more like a man racing to catch

for success. Friday night, it was

a commuter train than a worldclass competitor. But he is serious about running and sensitive to the fraternity that exists among his peers. His keenest rival in the 5,000 meters for several years was Steve Pre-

fontaine, a brash outspoken competitor from Oregon. "I used to really get myself up to run against Pre," Buerkle said. Yet when Prefontaine was killed three years ago in an auto accident, Buerkle was so grieved that he wrote a long poem eulogizing his former rival. "I still miss him." he said Friday night.

Buerkle's sense of who he is and

COLLEGE PARK, Md., Jan. 15 where he is typifles the new, Marty Liquori, once the world's

top-ranking miler and now the U.S. record-holder at 5,000 meters, is a partner in a chain of sports shoe stores around the country. Frank Shorter the 1972 Olympic marathon champion and silver medalist in 1976, has a popular line of running gear. Buerkle works as a salesman of soft contact lenses for Bausch and Lomb, a company that, he says, "encourages" him to continue his

dual careers. An extroverted nature and eneaging wit also set Buerkle apart from the more introspective milers. When a newsman asked him after the race what effect smoking had on running, Buerkle replied, "Smoking what?"

Image Problem Buerkle has been hald since age 12 because of a sickness, but he is not self-conscious about it. In fact, while discussing his schedule for the winter, he laughed when he said he would be running in the Vitalis U.S. Olympic invitation meet on Feb. 4 at Madison Square Garden. "What do you think?" he said

to newsmen. "Should I ask for some extra hucks to run it?" Buerkle has defied traditional running patterns. Generally, as in Liquori's case, runners move up in distance instead of moving down as they grow older. Buerkle is going in the opposite direction and enjoying the idea of signing autographs, running fast miles and being courted by meet pro-

Few runners have come as far as Buerkle over the last 10 years. At Aquinas High School in Rochester, N.Y., his best mile time was 4:28. His two-mile time, 10:01, was so unimpressive that he tried out for the Villanova track team without a scholarship. "How fast could he run a quarter?" someone asked Jumbo Jim

Elliott, the Villanova coach, after Buerkle's record race. 'I never bothered to clock him

in the quarter," Elliott said, chuckling. "He was too slow." In the Shadows

Like many athletes at Villanove. Buerkle prospered under Elliott's patient guidance, al-

though he was overshadowed by such prominent competitors as Liquori, who was a sub-4-minute miler in high school, Larry James, the Olympic quarter-miler. and Dave Patrick, another sub-4. minute miler. "I think Jumbo got a kick out

wasn't on scholarship the first couple of years," said Buerkle. He won his first national outdoor titles at 5,000 meters in 1974 and qualified for the 1976 U.S. Olympic team in that event. He was climinated in trial heats at Montreal and then took the year off competitively in 1977, a move that may have heightened his

zest for running this winter.

of seeing me do well because I

Bitter Medicine

By Russell Baker

ped me at the door. "You can't afford to come in here," she said. This was not news. Nobody can afford to go to a hospital anymore. The cost of

medical care is so high that the average patient sent to surgery for a tonsillectomy is bankruo. before the doctor can get around to his second tonsil. This is why so many Americans nowadays have one tonsil out and

Baker

I told the cashier I didn't want any medical care, but was just visiting. Visitor's admission was \$20, which, as the taker observed, was \$5 cheaper than an orchestra seat for Liza Minnelli's new musical. The elevator ride was \$7, so I used the stairs, which cost only \$5.

At the top of the climb I was inhaling deeply. Technicians hurried ma to an inhalationtesting room where a breath analyzer established that I was inhaling, in addition to air, the odors of floor wax, ether, iodine, tollet disinfectant, gif; fruit haskets and adhesive tape.

Floor-wax odor cost me \$10: ether, \$50; todine, \$25; disinfectant, \$20; gift fruit baskets, \$15, and adhesive tape, \$20. The air was free. There was a \$100 charge for use of the inhalationtesting room, a \$75 charge for use of the breath analyzer and charge for the paper on which the bill was written. Naturaily, I had to pay by check, having neglected to take ont major hospital inhalation cover-

Two guards restrained me in a corner of the corridor while a ourse phoned the bank to make was not a bad-check artist. I was charged \$40 for the guards. \$25 for use of the corner, \$10 for the telephone call, and \$60 for the clean bill of financial

I went along the corridor toward the room occupied by my friend, a wealthy entrepreneur who had swallowed a fishbone during an expense-account lunch, For use of the corridor I was charged \$50.

Use of the overhead lights in the corridor cost me \$20 and use of the heat from the radia-\$30. Since it would have rost \$150 to enter my friend's room, I stood outside and looked

I MANAGE CALLONS

NEW YORK-I went to the through the open door. Use of hospital. The cashier stop- the open door for this purpose the open door for this purpose cost \$15.

My friend was not there. Where is the man who swallowed the fishbone?" I saked a nurse. "The charge for information is \$130." she said with an apologetic smile. The charge for the smile was \$25 and the charge for its apologetic character was \$40.

By this time my bank balance was so low I was afraid I wouldn't be able to afford an exit. In fact, I would have made a run for the stairs and taken my chances against the accountant and treasurer if at that moment my wealthy friend had not appeared around a corner fully dressed and sobbing. His story, like the annals of the poor, was short and simple. He had been wiped out, possibly rained. The fishbone had proved more elusive than the doctors had anticipated. They had been compelled to go into the esophagus, then into the stomach before they removed it.

By that time, however, his bank accounts had been consumed: his insurance exhausted: his airplane, yacht and cars sold at auction, and his estates in all lost. Though he had become penniless on the operating table, the hospital had refused him out until incisions had been sewn and had even permitted the to keep clothes in which he had entered the place.

This, the hospital explained, was in line with medical ethics. for which the charge was \$1,500. This friend has always been highly strong and it was not surprising that he broke down wept in the administration office when told that, although a pauper, he had received the st medical care in the world. The charge for use of the administration office was \$100. The charge for weeping was \$150. The administrator said he would waive the \$300 charge for breaking down and send the rest of the bill to a collection agency.

advice. "Next time, get a divorce." he said, in a humorous vein. cheaper than swallowing fish-

Escorting us to the door, he

presented my friend with a gift

from the hospital-a tin cup and

a dozen pencils-and a piece of

bones. The charge for the tin was \$50; for the pencils, \$30; for the advice, \$100, and for the humorous vein, which had been transplanted from a patient who had been bounded to death by a collection agency, \$15,000.

The Incredible Miniatures of Edward Kazarian

By Ed Meagher

LOS ANGELES—The bit of the recent Soviet National Exhibition here was not the Soyuz space capsule or the impressive model of the Kremkn but a sampling from the incredible works of Edward Kazarian, an Armenian.

His works cannot be seen by the naked eye. They are visible only under microscopes that magnify them up to 500 times. Throughout the exhibition, a

long, slowly moving the stretched back from a row of microscopes installed at the Soviet State of Armenia exhibit, each focused on a Kazarian work. One comprised four sculptures,

done on four facets of a polishet grain of rice—the Statue of Liberty, the Kremin, the Bering Strait and a flying dove of peace. Technically, this prob-ably is the least remarkable example of the 13 Kazarian works that were on display. A finer emanuale was created. using a black horsehair .04 of

thinner white human hair. Upon this, Kesarian mounted to-scale carvings on precious stones of the cages and animak of a zoo-en elephant with calf, a rhino, a hippo, a camel, an ostrich, a lion and

an each long, hollowing it out

and then inserting into it a

And in a finel touch Keze rian placed a carved line of individuals waiting at the zoo entrance at the end of the hair. Seen under a microscope, all of the figures are remarkably

Still another work that constentily delights and astonishes visitors is a soulpture of Charles Chaplin's tramp, neatly framed in the eye of an extremely tiny needle.

In an interview, Kamrian talked through an interpreter about himself and his accomoliehmente Now 53, Kazarian was only

3 when his first sculptures-

set of clay toys were displayed at his kindergerten. He began playing the violit at 6 but was never quite satisfied with the one given him, he recalled. When he was 13, he made one to his

Mining. Then he made snother dolin. And another, followed by others. In this way, he said, he became a professional victin maker, the most celebrated in the Soviet Traign

His work in ministures began with a scaled-down violin he made to order for a gifted 4-year-old girk It turned out so well, sounded so good, that

decided to try making one

Kremlin painted on grain of rice; Edward Kararian.

much smaller, about 2 inches

This one also sounded so good that it excited me," he said "and I made up my mind to try to make one reduced to 14 millimeters in size, using a

magnifying glass.
"It weighed half a gram and gave out sounds. Tmy sounds. It was almost impossible to play it." he said. That was 30 years ago. He

has been broked ever since on creating ministures, finier and timer ones, setting for himself seemingly impossible challenges. in size. After the micro-violin,

Kararian carved a tractor out of the end of a needle, using a microscope and took of his own design, with a specie of diamond dust as the cotting point. The teactor carried a banner for My Country," and was mounted on a grain of wheat. The whole was exhibited under glass in a museum; One day, Kasarian said, a

visitor to the museum rushed up to en official and reported the tractor had turned over. Razarian said that he was called in and saw what had bappened. The wheat grein had begun

to grow, toppling the machine," he said. "I replaced it with a piece of hardwood of about the. same shape and color as the wheat grain. Kazarian, famed for his

violins, gradually became noted for his ministures as well. Shortly after World War II, Kasarian recalled, the Soviet news agency Tass moved &. feature story describing some of his works in detail.

A German newspaper published the story and shortly was swamped by readers' letters of disbelief. The paper's editor printed many of the letters and, in an editorial, challenged Kasarian to offer proof.

Kazarian described his reply: mother's head and inscribed on it: "Brotherly regards to the German people from the Armenian people." He connected the hair to two all-but-invisible rubles and sent it, enclosed in a microscope, to the German

invited his readers to come see for themselves. Thousands came, standing in long lines. Finally, Kamrian said, the editor wrote: "Now, you see it sometimes happens. Paky tales do turn out to be true." Not long after, the Indian government prasented the Soviet Union a gift-a needle

The editor put it on display

Kazarian, seked by his government to weste a suitable gift in return, polished a hair with diamond dust, hollowed it out and inserted 800 carved elephants into it.

upon which seven elephants

had been carved.

Kestatian has a two-room workshop in Moscow. A group of assistants helps him in the early stages of creating his

The work itself, besides recurring estimate flatr, also calls for the knowledge and skills of a mechanic mathematician, inventor and physicist.

It also riemends, Kazarian said, a rock-steady hand and perfect synchronization of hand movement with his brain.

In the critical final stages of each work, he makes his deft movements with his hands only in the intervals between his heartheats . . Once he starts a line, he

said, he cannot remove his possible for him to find the precise line again. Instead, he holds his hand still and waits for the next interval between heartbeaks to continue the line He uses a finy, thin instrument. A bole in the end of it is filled with the in which diamond dust is implanted.

It takes Kazarian from two to six months to complete a miniature. They are in musims throughout Russia and in a few other countries, gifts from the Soviet Union. This was the first showing in the United States

Kazarian said that he has received many offers to buy his miniatures but has sold none and does not believe he aver will. He said that he likes to think of them as signifying intendebb between nations. Beyond that, he noted that sch of his creations is unique and cannot be duplicated, "so I don't want to sell any of

in margering " .. Kazarian wears a mask over his mouth as he carves, so that his breath does not disturb the chierie on which he is working. Once while working without a mesk on a tableau of 15 gold dancing girls, Kazarian said, he inadvertently inhaled 10 of

A friendly, articulate man, Kazarian has stories to tell tures in their power to delight. There is the one about the opera house, complete with showbills on its doors, that he canved out of ivory and placed on the point of a needle.

began to attract inordinate attention when viewers reported eeing pople moving in and out of the opera house. "But I had out no people there," Kamman said.

PEOPLE: You've Got to Give Credit

number of totally untrustworthy sources, that during his lifetime the average American accumuletes enough plastic in the form of credit cards to pave the entire length of the rue de Berri (and there are those who think this a splendid idea). But It has been left to a Californian to prove it. Walter Cavanagh, R pharmacist from Santa Clara, Calif. has surfaced as tha world's record credit card collector. At the moment, he has more than \$1 million in credit available based on his 862 cards. The collection began several years ago, when he and a friend made a bet on the number of cards they could obtain during a year. Cavanagh won, and went on to broaden his hoard. He now has cards from restaurants, banks, hotels, department stores, car rental firms, airlines. casinos, grocery stores and railroads, as well as cards issued by 43 oil companies. And he even has a credit card enabling him to buy a house, if he chooses. (Cavenagh still has a way to go. however. In the United States alone, there are an estimated 10,000 different cards). What does he do with all that credit? Not much. He carries a pair of cards for everyday use and stashes the rest in a bank or in a San Francisco museum

It has been estimated by any

carried them all. of voor name was Autrey Russell-Scarr, would you change Well, Aubrey Russell-Scarr is now Anbrey Meysey-Thompcan, and for jolly good reason. It seems that his spinster cousin, Alice Meysey-Thompson, left her \$1.1-million estate to him on the condition he change his name to hers. Says the 28-year-old Army "My cousin was a. grand old lady who was very proud of the family tradition. She just didn't want to think of the family's name disappearing." He added: "It probably means the end of the Russell-Scarrs, as I have only a few other relatives left. Anyway, Meysey-Thompson is a nicer name_I'm proud of it already." But consider this shout two-thirds of the bequest will go to the govheritance taxes.

Added up, his cards weigh 29

counds enough to make him

list sharply to starboard if he

John Mitchell, has had his furlough from prison extended to Jan. 27 by the Justice Department. Mitchell is under treatment for what his physician describes as a ballooning out of the aorta, the major artery of the heart." Mitchell was released from the federal prison at Maxwell Air Force Base in Alabama on Dec. 28, originally for tests to determine if he needed an operation to replace his erthritic right hip. He was to

have returned to prison sa but the aortic problem deto four years in the Water eenspiracy coverup, k el for parole in June. His do said Mitchell would Georgetown University Ro cn Jan. 24 for an operation the problem. The physician Mitchell's chances for rewere excellent. That still is the hip problem, which might quire a further extension of furlough.

What's in a name? Not the says Bill Comer, a junior school teacher from Com Springs who, as a gram is stricter than most. Conlong been disturbed that the 110-foot Pikes Peak, discovery 1906 by Zebulon M. Pike, is Pike's with an apostrophe. C has finally seen an opport to do battle for his cause be El Paso community college to change its name to Pike community college, and O wants it to be Pike's. An against him are Colorado lators who insist on Pikes. issue remains unresolve Colorado Gov. Richard puts the name change vit without the apostrophe legislative agenda. So far governor has not indicated stand.
